SANTA VISITS WITH FRIENDS AT THE CSC CHRISTMAS PARTY.

BOB MOHR is still shopping for a new car. He gets more enjoyment out of NOT buying a car than anyone we know. DICK HANLEY knows how to live it up. He came to work in a taxi again last week. BUTCH NOTTER and BEN TRUSTY still bowl for the Chemists and the Chemists continue to lose. JOE NIESS claims he got that swollen nose from a crow-bar. He won't tell who was on the other end. The Pilot Plant group had their annual Christmas dinner December 24th. Attending were JOHN BITTS, JOE MC COMBS, PAUL CHATMAN, KENNY ATKINSON, BUTCH NOTTER, VIRGIL FAGG, DICK HANLEY, BILL LUKEN, EARL WRIGHT, YOONSIK LEE, FRED SCHMITZ, BOB MOHR, and TERRY RUSSELL. Bill VanHoy represented Purdue University. LAWRENCE "BUCK" BYERS and NORM MERRIAM spent Christmas week on vacation. JOE MC COMBS' big pontiac wouldn't run one morning. It was too big for one tow truck so they had to disassemble it to get it to the garage.

ANTIBIOTICS SHIFT #4

Big TOM SAPPINGTON is the proud father of a new baby boy, 9 lbs, 3 ounces. Thanks for the cigars Tom. Glad to see WAYNE (the mad scientist) MAYNARD, back on the job after three weeks vacation. R. W. JONES, we hear let his antifreeze get to high here while back, results, nothing stronger than fruit juice, Doc's orders. We see HARRY MODESITT has a pretty 63 light color rambler station wagon. A new face on the owl shift, PAUL MATHERLY. We missed CLARENCE HEIDINGER, he was home a week with the flu. JACK MONTGOMERY told some tall stories about pheasant and quail up around Rosedale this year. Big JIM HOKE transferred to Derivatives and Big TOM SAPPINGTON has had a big smile on his face ever since.

IN MEMORIAM

We at CSC were saddened by the death of GILBERT "GIL" GRAHAM, January 11th. He suffered a stroke and was ill only a short period of time. Gil began his employment with CSC in September 1938 and at the time of his death was employed as a compressor operator in the Antibiotics department.

Gil was a good, loyal, friendly and conscientious worker. He had a host of friends and will be missed by them. Our sincere sympathy to his wife and family.

RESEARCH NEWS

Mr. Howard E. Post, lately of International Minerals and Chemical, has joined the R & D Division as Patent Counsel. Prior to his association with International Minerals, Mr. Post was with the law firm of Soans, Anderson, Luedeka and Fitch in Chicago and he began his professional career with Universal Oil Products shortly after receiving his degree in Chemical Engineering from Illinois Institute of Technology. He received his J.D. from De Paul University in Chicago in 1955. His family is expected to join him in Terre Haute in the near future. - - - Dr. Peter C. Markunas, Director of Analytical Research at R. J. Reynolds Tobacco Company and formerly a member of the Analytical Staff in Research at CSC, spoke to the Wabash Valley A.C.S. January 11, 1963. The subject of the lecture was Non Aqueous Titrimetry. Dr. Markunas had an opportunity to visit and renew relations with his friends at CSC. - - - It had been too quiet in the Life Science Building far too long so one Sunday afternoon WAYNE "GOV" LESLIE rigged up a pair of boots and trousers in the stall of the restroom before he left. BOB TAYLOR always comes to work first and on the next morning Bob tells us that he got pretty irritated because the "man" in the stall wouldn't respond to his greeting, before he discovered that he had been tricked. - - - Dr. JESS HENSON spent the last week of 1962 with his parents in Oklahoma. Felt good to be punchin' cattle instead of a clock for a change, Jess brags. - - - DAVE HOWE gets 19.66 miles per gallon in his new (chevrolet) "cadillac" but everybody else does better to hear them tell it. - - - All Life Science men unanimously agree that WAYNE CHANDLER comes back from trips with the most interesting stories.

MSG NEWS

It shouldn't happen to any youngster, but BILL ADAMS' little daughter fell prey to the chicken pox virus two days before Christmas. Does anyone have a cure for a contrary bird dog? If so, please contact FRED or JACK SCARBROUGH. - - - JIM KELLEY nearly broke into tears the other evening when his turkey dinner landed bottom side up on the floor. He went hungry the entire shift. It's rather doubtful that he got too much sympathy from HARRY STEWARD, since Harry was only having cold cuts.

TERRE HAUTE COMMUNITY THEATRE WELCOMES NEW PARTICIPANTS

Community Theatre of Terre Haute, now in its 37th continuous season of operation, has a standing call for new "helping hands" in all its varied activities. There's a place for anyone interested..and fun and satisfaction. Tryouts are scheduled Tuesday, February 5 and Wednesday, February 6 at 7:30 p.m. at the Weldin Talley Memorial Playhouse, 25th and Washington Streets, for "The Time of Your Life".

ACCOUNTING DEPT.

Everyone in the Accounting Department must have gotten what they wanted for Christmas since we have heard no complaints.

Maybe it's just because everyone has been so busy with year-end work though.

BUD BRUSSELL is still looking for that 75 foot shade tree for his front yard.

It's audit time again, and we have with us this time a pleasant young gentleman from Arthur Young Company named HOWARD ORLIN.

FRANK DIEKHOF has been given notice that from now on he gets no sympathy from us. Anyone who spends vacations at home and doesn't have to come in to get his checks on payday shouldn't be complaining about having to eat on the same ham bone all week. If anyone wants to know how to train new puppies just ask BETTY YOUNG or ROSIE GAYER. Betty has a dachshund and Rosie has a wire-haired fox terrier. THELMA KELLY went to visit her son in Yuma, Arizona. She said she had a wonderful time and can't wait to go back. HERMAN CRUSE went to Chicago on business(?) for a couple of days last week. ESTILL ROTH went

to visit his daughter in Wilmington, Delaware. He said those grandchildren really led him a merry chase. He came home to rest.

DEWEY WHITE brought his wife home from the hospital Saturday. We sure hope she's feeling much better. TOM WALTON vacationed in sunny Florida. He came back with a beautiful sun tan. He also

missed out on all that icy weather we had. CHARLIE BONAR wishes Spring would hurry up and get here. Don't you? ROSIE GAYER is going from one extreme to the other. She is moving from West Terre Haute to Seelyville. From all the aches and pains she has accumulated, we are beginning to wonder if her husband is doing any of the work.

RETIRED NEWS

The meeting of the CSC Retired Club was held Tuesday January 8th at the V.F.W. on South 13th Street. There was thirty-three present, every one brought a few sandwiches and coffee was furnished. Door prizes went to Rollie Moore, Mrs. Bill Moseman and Mrs. Amos Haddix. Mrs. Wm. Small was reported sick with a bad cold. Mack McCullough

has had a blood clot in his ear, but is feeling much better. James "Herb" Dishon has been in the hospital with double pneumonia. He is home now and doing fine. Elza Ring is improving after suffering a stroke. The next meeting will be on February 5th.

We received a note from Louie Pelkey, He and Mrs Pelkey are enjoying Florida, said he keeps up on all games in Indiana through the sports section of the Tampa paper. Louie sends his best to all the folks at CSC. - - - Harry Hart is going to Florida for a couple weeks. He couldn't have picked a better time. - - - John Clements reports that he will soon undergo eye surgery.

ENGINEERING DEPT.

On December 17, the Engineering Department welcomed Dr. ROGER NEWTON to our Staff. Dr. Newton hails from Boston, Mass. and is a graduate of Yale, holding three degrees as a Chemical Engineer Consultant. Dr. Newton is not exactly a stranger to some of us as he has been a Consultant for our company for quite sometime with offices in Boston. Dr. Newton is married and has three children, two girls and a boy. One daughter is a TWA Stewardess at present flying between New York and Indianapolis, so some of our personnel may be chance meet her in their travels. Dr. Newton's wife and family plan to join him in Terre Haute in the very near future. - - - JOHN GROPP has been busy lately being the "Good Samaritan" as the night of December 21, when everyone's windshields were frozen over with heavy ice, John had a special razor scraper which he most obligingly used on many of his fellow workers' cars to help them out of their plight. John was so actively engaged that night in his project that he didn't get home until after 6:00. More power to John and his kind. - - - We are listening to "Grandfather Brags" lately as HERB HYLTON has another grandchild born this month giving Herb a total of two. Also, RAY HEIDENGER has just returned from the East bringing scads of pictures of his new grandchild, which brings his average up to two granddaughter. On our sick list this month is PAUL GROVER who is confined to his bed at home. At this writing we hear Paul is improving some. - - - DON KENNEY it seems has just went into the business of rabbit raising. He just adopted JOHN GRENN'S children tame white rabbit for his farm, so if we soon see Lorna sporting a white fur bunny jacket we will know that "developments" are moving fast. - - - WALLY KINSER is now known as the El Paso Kid. - - - ROGER NEWTON, BOB WALTERS, FRED SCHMITZ and PAUL ISENBURG lost the space argument to the luggage on the flight to Memphis in HOMER KIEWEG'S private flying box-car. BOB DINKEL is IRENE BROWN'S new assistant on laying out plane flights. HERB HYLTON and BENTLEY BROWN are hurrying up their engineering so they can get to Medicine Hat before it warms up. - - - FRED DUDLEY visited us this week. - - - MIKE HARMAN and Caroline vacationed on the Florida Keys over the Holidays, but decided against a trip to Cuba. DUNC THOMSON is trying to find his way around the office and his home after spending most of the year at Dixie. - - - ERNIE DANNER gave up on the icy hill to his house recently and stayed over night at his daughter's in town, - - - JOHN WHIT of Ford, Bacon & Davis visited the Engineering Department (and who else?) Christmas. - - - BOB and Jean DINKEL were again hosts for the annual Christmas Engineering Department party at their home on December 23. A buffet supper was served and guests enjoyed dancing, playing pool and two long distance calls to Houston to talk with DICK MC GHEE and CHARLEY SCHOLER. - - - Thanks to the Engineering girls and boys for a real nice Christmas tree and party in the Drafting Room.

THANKS TO BLOOD DONARS

We wish to thank EARL WRIGHT, CHUCK HALE, TOM MODESITT and BILLIE POTTS for donating their blood for Mrs. Marie Hoopingarner, wife of our retired employee, Herschel Hoopengarner.

"Sam," his dying partner wheezed, "I have a confession to make. I robbed our firm of \$100,000. I sold the secret formula to our competitors. I took the letter from your desk that your wife needed to get her divorce. And Sam, I. . ."

"That*s all right, old man. It was me that poisoned you!"

A nearsighted man rounded a downtown corner as a large dog coming from the opposite direction bumped into him and sent him sprawling. As he was getting up one of those small foreign sports cars hit him from the other side and knocked him flat. A good samaritan rushed over and asked if he was hurt. "I don't think so," said the near-sighted one, "the dog didn't hurt me a bit, but that tin can tied to his tail nearly finished me"

Children wear out clothes and shoes fast, but parents faster.

By the time many men discover that money doesn't grow on trees, they're already way out on a limb.

A farmer boy applied for a job at a drug store. His interviewer began to fill in the form. "Your name?" "Henry Ford," answered the boy. "That's a pretty well-known name, isn't it?" "It ought to be," said the boy, "I've been plowing gardens around this town for the past two summers."

A fly found a piece of bologna in a kitchen and started to eat it. He soon got very full, but he loved bologna so much that he kept on eating. Pretty soon he was too full to fly so he climbed up a broom handle. When he tried to fly away, he was so stuffed that he fell to the floor and was killed. Moral: Don't fly off the handle when you are full of bologna.

In playing golf often the most difficult lie to get out of is the one made in the locker room.

"Father: "You can ask a question but make it short."
Small Son: "Well, when a doctor gets sick and another doctor doctors him, does the doctor doing the doctoring have to doctor the doctor the way the doctor being doctored wants to be doctored, or does the doctor doing the doctoring of the doctor doctor in his own way."

"Historians tell us about the past and economists tell us about the future. Thus, only the present is confusing."

Keeping a secret from some people is like trying to smuggle daylight past a rooster.

SAFETY

SIX TIPS FOR WINTER

DEFENSIVE DRIVING

I only had ONE accident!

ACCEPT YOUR RESPONSIBILITY

Driving conditions are less favorable in the icicle season. It's up to you to winterize your car, to winterize your driving techniques and to winterize your determination to avoid accidents. Don't blame the weatherman for a crash. He can't change things. Accidents are caused only YOU can prevent them.

HAVE GOOD TIRES --USE TIRE CHAINS

Whether you use regular or snow tires, make sure the tread is not worn to a "baldy". Use reinforced tire chains for deep snow and ice; they cut stopping distance about half and give four to seven times more traction than regular tires. BUT, even with snow tires or help of chains, speeds slower than normal are a must on slippery surfaces.

KEEP WINDSHIELD AND WINDOWS CLEAR

Clean snow and ice off the windshield and windows. Be sure windshield wipers are working and won't streak. Make sure heater and defrosters are working properly. Danger may approach from the side or rear as well as the front. Lower a window a fraction. It helps hearing sirens or other warning sounds; it prevents steam on the inside of glass and eliminates fumes and drowsiness.

GET THE "FEEL" OF THE ROAD

Try your brakes occasionally away from traffic to find if the road is slippery, then adjust your speed to road and weather conditions. Remember that conditions on a rather heavily traveled street or road can be vastly different from those on a side street. When conditions change, make another test of brakes before proceeding. Conditions also change with the clock. Conditions change during the day with the rise or fall of the temperature.

FOLLOW AT A SAFE DISTANCE

This is always good advice, but most important, when not on dry, comparatively safe pavement. Keep well back of the vehicle ahead so that you will have ample space in which to stop.

PUMP YOUR BRAKES

On snow and ice, the best technique for stopping or slowing your car quickly and with full control is a fast up-and-down pumping of the brake pedal. Jamming or "freezing" the brakes is almost certain to lock the wheels which is apt to throw the vehicle into a dangerous and uncontrollable skid. In case of a skid, steer in the direction the rear of the car is skidding.

JOHN BITTS was surprised when he got home the other evening and found some of the windows blown out of his house by the explosion up North. - - BILL LUKEN's luck one of those cold mornings was a flat tire and the antifreeze leaked out of his car. - - - JOE NIESS and RUSS BREWER spend much of their spare time in theatrical work. - - - DICK HANLEY says he enjoys working days. He's even getting to like "birds nest" soup. VIRGIL FAGG and "BUTCH" NOTTER couldn't get their cars started during the recent cold weather. BUTCH traded his for a Lark. We are all waiting to see what VIRG does.

BOB MOHR was under the weather last weekend so he couldn't spend any time not buying a new car.

MACHINE SHOP TALK

The machine shop gang think it's about time SAM JOSLIN had his bowling arm insured since he has been keeping the team in high. - - - DOC CHURCHILL thinks this will be a good corn year and is looking forward for DALE KIRTS to bring the corn in as its been since 1955 that old DOC could take the cobs home. - - - JOHN VOLL has been traveling around the country visiting all the gun clubs. Looks like he would show some Blue Ribbons pretty soon. - - - WHY does "HARPIE" HARPOLD always "blow up" when a certain fellow says he will take it home to Mary. - - - We wonder where ALEX TRENCH and KENNY MC INTOSH learned the fine art of gentleness? - - - The boys would like to know how soon RICHARD BERRY will complete his post hole digger and if he will have to make the posts? - - - Since winter set in and CLIFF KYLANDER started wearing his rompers, we can't tell wether he has gained weight or still thin rind. - - - WILBURN CLOUGH sits on the side lines at the card games in the machine shop trying to figure how DOC CHURCHILL wins in the last few weeks. - - - DALE ROYER seems to be in the dog house again with his wife, the reason, no valentine!

 HERE'S ONE TAX THAT WON'T BE CUT -- Financial World, Jan, p.3

Social Security has always enjoyed wide popular support and is frequently cited as an outstandingly effective piece of legislation. There is some doubt, however, about how long this reputation can be maintained. Since 1937, the tax load imposed upon employer and employee has spiraled from 2% on the first \$3000 in wages to 7½% on \$4800 this year. - - Though the Old Age and Survivors Insurance Trust Fund shows a healthy surplus these days, there is some question that this happy condition will prevail as the proportion of those contributing to the fund levels off while the proportion of those receiving benefits continues to grow. To date, beneficiaries have become eligible for payments far surpassing their own past (continued on end Kekos
 Kolumn)

KEKO'S COLUMN

Just call me Judge Keko from now on. I am sure the rumor has spread around that I am now a member of the Grand Jury. As such, I am giving all the poker players warning. I'd better win at the next stag

or I will have a big Grand Jury investigation. Poker players, take note!

How many of you have missed making the turn at Washington since Bud's Tavern is no longer the land mark at the corner? I'll bet some of you fellows can't make it home since that place has gone. - - The next time you are in the Time Office, look at the Certificate of Appreciation our Company received from the Vigo County Civil Defense unit. We received this award in recognition of our service in lending equipment and manpower during the recent Home Packing disaster. Let me extend my many thanks to those employees who rendered assistance at this crucial time. I know we offer our services just on the strength of being a good neighbor. We therefore are proud to have had these services recognized. - - I would like to say a word of caution regarding the traffic in the Plant. We had our first accident involving two passenger vehicles within the Plant grounds. I know there are many times in which you and I both drive too fast and don't follow proper traffic rules within the Plant. For your safety and mine, let's all make sure that we do follow traffic regulations in and out of the Plant. Fortunately the accident was not too serious -- no persons were injured. The next one could be worse. Let's not let the next one happen. - - - I noticed that three Commercial Solvents employees were members of the last Community Theater play. My hat's off to these individuals! Incidentally, if any people are interested in pursuing any kind of work connected with the theater or symphony or other community projects, we are always happy to help you get started. Just mention it to me or the people in the Personnel Department and we will see that you get introduced to the proper people. - - Couldn't finish this column without making some statement about the weather. The only consolation we can have is that the Sterlington Plant has 2 inches of snow today. They are not cutting the lawn! (Eck Wheeler, please take note.)

TAXES CONTINUED ---

contributions and thus have been subsidized by younger people. As the proportionately declining number of young workers in the nation realize that they are being required to contribute an increasing share of their earnings to the support of a booming population of beneficiaries, and with no guarantee that others will do the same for them in the future, Social Security may undergo an agonizing reappraisal.

AROUND THE PLANT

Lenelle Howe, daughter of DAVE HOWE received all A's for her final grade last semester. Lenelle is studying at the University of Missouri - - In the Terre Haute Tribune Star February 3, "Thirty Years Ago Today" FRANKLIN STROLE was on a program committee for the Wabash - Brown's College of Commerce. - - - JIM LEACH is proud of his daughter, Sharon grades this term. Sharon is attending Indiana State College. - MARY STROHL'S children, Beth, a freshman and Larry, a junior at ISC also did quite well last semester with over 3. Mary states that the Indiana State College Review is February 28th, March 1st and 2nd and is very interesting. - - - Is it true that BILL EVANS was the first to have his foot prints in the Alcohol Department's new cement ramp? - DILLON GARD, RAY WATTS and JOE ROMAN are giving the south wing at Research a new paint job. MARY STEWART and MARY STROHL will recommend them, they are doing a real swell job. - - - VIRG HAMELMANN'S dachshund "Hilda" had three puppies the other day. Wonder if BETTY YOUNG and ROSIE GAYER would be interested in them? - - - ERNIE REYNOLDS was in the plant visiting with all his co-workers the other day. Ernie seems to be getting along very nicely. - - - FRANK COLLINS was out and about the plant Monday. Frank has been off work since August 10 '62 recuperating from a heart attack.

MR. E. J. FARRELL - NEW YORK OFFICE

The employees of Commercial Solvents Corporation were saddened recently to learn of the death of Edwin J. Farrell on Feb. 6, 1963. At the time of his death, Mr. Farrell was Sales Service Supervisor in the Advertising and Sales Promotion Department, New York. Known to one and all as "Ned" Mr. Farrell joined CSC in Oct. 1929 as a stenographer in the Controllers' Dept. He later served as Executive Secretary to the then President Mr. T. P. Walker. He joined the Advertising and Sales Promotion Department in the year 1945, serving as Advertising Manager for Automotive Chemicals under Mr. John Cronk. He became Sales Service Manager in the Advertising Department in 1952. "Ned" was born in Philadelphia on May 29, 1903. He was married to the former Mildred Driscoll who survives him.

Nyleen Barnett of Jackson, Mississippi will become the bride of WILTON O. BELL on Saturday, March 16, 1963. The ceremony will be performed at 2 o'clock in the afternoon at the First Presbyterian Church in Jackson. The bride is Director of Christian Education of this Church. Mr. Bell is employed by the Process Development Department. He is now stationed at our Sterlington Laboratories but prior to his transfer last summer, spent several years in the Terre Haute laboratories and Pilot Plants. - - - CHARLIE BRIDWELL'S "heart attack" proved to be a false alarm, we're glad to report. After a week in the hospital Charlie's trouble was found to be much less severe. We're glad to have him back to work and almost back to "Charlie". - - - DAVE HOWE parked his bicycle while the ice and snow was on the streets. Dave's bicycle "rode him" down Washington Street hill last month and he decided four wheels were safer on ice.

CONTROL LAB NEWS

BILL FOGEL participated in the Central Illinois Invitational Bowling Tourney held at Springfield, Illinois last weekend. He's not boasting about his scores, just average he says. - - - Rita Turner, wife of HAROLD TURNER, J. N. Lab, represented her chapter "Beta" or princess in the Beta Sigma Phi Annual Queen's Ball. - - - Cynthia Ann Green daughter of HARRY BROWN, was chosen as princess of Gamma Phi Chapter. Neither has just that bit of luck to be drawn as Queen. - - - Margaret Ruth Brown, youngest daughter of the HARRY BROWN'S was married Saturday February 16th to Dale Cesinger of R. R. # 5. In an impressive home setting the double wedding ring vows were exchanged. Ceremony was conducted by the Reverend Shabaz of East Glenn. - - - We are happy to learn of the steady improvement of Mrs. C. Hopper, aunt of Mrs. CARL FREEZE. She suffered a broken hip in a fall recently on the ice. - - - The SIDENBENDER'S basement was the gathering site of the Buds Tavern Women's bowling team, their husbands and rooting friends after the team rolled in the City Tournament February 3rd. The gang numbered 18. Pros and Cons of Team event were discussed, but the team placed in the money.

THANKS TO BLOOD DONORS

Engineering has another happy Grandfather to add to their list as on February 4. ERNIE DANNER welcomed the first "boy child" into their clan after being surrounded by a goodly number of females for years. ERNIE has three daughters and five granddaughters, so this was quite an event for the Danner family. - - -

We welcome back PAUL GROVER after a long siege of illness. PAUL will be with us for half-days for a few weeks until he has gained back his strength. Paul is now minus thirty pounds. - - We still have several of our department on the sick list as DON KEENEY was rushed to St. Anthony last week for an appendectomy, but is reported to be getting along nicely. - - - ED JOHONNOTT has been a subject lately for the inquiring reporter, as Joe was called by the Indianapolis Times paper one morning and asked for his reaction on our latest explosion in Terre Haute. Joe said he was so sleepy, as they routed him out of bed at 6:30 A.M., that he wasn't really worried about the state of affairs at that moment. Quite understandable I would say! - - HERB HYLTON left us this week for the Northwest to be gone for several months on our Northwest expansion jobs. Mrs. Hylton will accompany him this time. - - - BENTLEY BROWN left for Medicine Hat ahead of the Hyltons to get things warmed up for HERB and DESSA. - - - JOHN GRECH'S son Chuck received a nice honor lately as he received the award of first place for the high school piano contest held recently at Indiana State College. His son also served as a Page at the State Legislature in Indianapolis recently. - - - ED JOHONNOTT'S son Eddie is now a student at Indiana University majoring in music. Eddie has become quite an accomplished violinist, having studied under some of the better known violinists in our country. - - - AL MILLER has recovered part of PAUL ISENBURG'S investment in WILBUR KEKO'S bowling. BOB JARVIS too! -- - BOB WALTERS has been returning to Texas regularly, "the land of his birth", but always seems glad to be back in Hoosierland. - - - WALLY KINSER reports that West Texas is far from the tropical climate he was led to believe. - - -

YOU GOT TROUBLE? BE THANKFUL!

Be thankful for the troubles of your job. They provide about half your income. Because if it were not for the things that go wrong, the difficult people you have to deal with, and the problems and unpleasantnesses of your working day, someone could be found to handle your job for half of what you are being paid. It takes intelligence, resourcefulness, patience, tact and courage to meet the troubles of any job. That is why you hold your present job. And it may be the reason you aren't holding down an even bigger one. If all of us would start to look for more troubles, and learn to handle them cheerfully and with good judgment, as opportunities rather than irritations, we would find ourselves getting ahead at a surprising rate. For it is a fact that there are plenty of big jobs waiting for men and women who aren't afraid of the troubles connected with them.

AROUND THE PLANT

Lenelle Howe, daughter of DAVE HOWE received all A's for her final grade last semester. Lenelle is studying at the University of Missouri - - In the Terre Haute Tribune Star February 3, "Thirty Years Ago Today" FRANKLIN STROLE was on a program committee for the Wabash - Brown's College of Commerce. - - - JIM LEACH is proud of his daughter, Sharon grades this term. Sharon is attending Indiana State College. - MARY STROHL'S children, Beth, a freshman and Larry, a junior at ISC also did quite well last semester with over 3. Mary states that the Indiana State College Review is February 28th, March 1st and 2nd and is very interesting. - - - Is it true that BILL EVANS was the first to have his foot prints in the Alcohol Department's new cement ramp? - DILLON GARD, RAY WATTS and JOE ROMAN are giving the south wing at Research a new paint job. MARY STEWART and MARY STROHL will recommend them, they are doing a real swell job. - - - VIRG HAMELMANN'S dachshund "Hilda" had three puppies the other day. Wonder if BETTY YOUNG and ROSIE GAYER would be interested in them? - - - ERNIE REYNOLDS was in the plant visiting with all his co-workers the other day. Ernie seems to be getting along very nicely. - - - FRANK COLLINS was out and about the plant Monday. Frank has been off work since August 10 '62 recuperating from a heart attack.

MR. E. J. FARRELL - NEW YORK OFFICE

The employees of Commercial Solvents Corporation were saddened recently to learn of the death of Edwin J. Farrell on Feb. 6, 1963. At the time of his death, Mr. Farrell was Sales Service Supervisor in the Advertising and Sales Promotion Department, New York. Known to one and all as "Ned" Mr. Farrell joined CSC in Oct. 1929 as a stenographer in the Controllers' Dept. He later served as Executive Secretary to the then President Mr. T. P. Walker. He joined the Advertising and Sales Promotion Department in the year 1945, serving as Advertising Manager for Automotive Chemicals under Mr. John Cronk. He became Sales Service Manager in the Advertising Department in 1952. "Ned" was born in Philadelphia on May 29, 1903. He was married to the former Mildred Driscoll who survives him.

CHEMICAL PILOT LANT

BUTCH NOTTER has a new dog - he has the teeth marks to prove it. - - - RUSS BREWER spent a weekend horse-back riding on his girl's farm near Greencastle. - - - JOE "Judge" MC COMBS ran the Shrimp Boat around in his father-in-laws back yard during the recent flood we had. - - Someone stole the radio aerial and two hubcaps off VIRGIL FAGG'S car in the parking lot while he was working on 11-7 shift. - - -

JOHN BILTS is showing signs of age. He locked his keys in his new Chevy station wagon and left the motor running. A passerby stopped him as he went in the front gate to tell him his engine was running. - - - JOE NIESS is the proud father of a new daughter. Our congratulations to Joe and Mrs. Niess. - - - EARL WRIGHT is casting longing eyes at the fishing weather we've been having. - - - BEN TRUSTY is driving a flashy '53 plymouth these days.

ELECTRIC SHOP

The sick list has claimed RAY HIGGINS for the past three weeks or so, 16 days of it in the hospital. He was back on the job Monday the 18th. - - - Let it be known that the Democrats have ruled long enough to place HOWARD RUBE in the 2 car family. - - - If you notice a new broad grin around the plant, take a good look because you'll find FRANK LATTA behind it. Things are lookin up on the redevelopment project. - - - Need a hair cut? DON PAYNE'S taking advanced orders since his son entered barbers college. - - - I mentioned the sick list and wish to add; Don't be surprised if PAUL CATON comes down with caritis, He's been talking out of his head lately. - - - Next year if I'm not a subs, sub. on our bowling team, It'll cost the opposing team 50¢ a man to beat the maintenance team. The ribbing and smirking remarks I have to take should bring me some compensation. Yours, 109 - 110 - 112.

DERIVATIVES

GIL WALKER and CHARLIE STEINSBERGER are planning on planting a large garden again this year. - - - ERVIN ELLIOTT is sporting a pair of bright red artics; just what Esquire perscribes for this sunny Indiana weather. - - - JIM CLIFT had to use his snow removal equipment to plow a path from his rural retreat during the last snow. Oh for the life of a "rural retreatter". - - - The flu bug really hit Derivatives; next fall we will be a ripe area for a flu shot salesman. - - - Our wishes for a speedy recovery go to JOE CLAY in St. Anthonys hospital;

DENATURING PLANT -----

"COWBOY" PAYNE is learning the ropes in the denaturing plant to fill in for vacations coming up. - - - -
G-Man "MAC" MCCUTCHEN is back with us after a winter's sojourn in the south, (South Plant that is.) - - -

"WILLIE" AULD was waiting for the insurance company to fix a headlamp on his car. Then the CSC Stag came along, he had to stand the bill himself so he'd have some transportation. He won a little money tho, so he can afford to wait awhile longer on the insurance. - - - - -
"DOC" PAGE is back after a weeklong bout with the flu bug.

ALCOHOL

Some pork raisers try to feed so they can get their pigs on the market, but there is a certain pork raiser that works in non beverage that tries for endurance to see how long they can go without feeding (Three days is the limit). See RUSS KINDLE for feed saving ideas. - - - -
PETE LATTA says the land around Cory is for the "birds" . - - - -
"Cowboy" PAYNE is back from a bout with pneumonia, we're glad he is back to work. - - - - JIM STAGGS is looking forward to vacation time, as he is planning to go out west to New Mexico and Arizona. He says there is nothing like the wide open spaces. - - - - EVERETT FOGEL says his chicken business is better now since the weather is a little warmer. - - - GENE LOWE is still with the Alcohol gang since he was transferred from the South Plant some time ago. Glad to have you with us Gene. - - - - "POSSUM" HUNT has had spring fever for a few days since the sun has been shining, although the weather never was as bad down at his house as it was here in Terre Haute, anyway that was his story. - - - - GENE HARTLEY is a very fine boss, if you don't believe it just ask Ruthie and Ruby.

ORDER DEPARTMENT -----

We are happy to welcome KAREN KELLEY to the Order Department... She has been quite busy learning the various jobs in the Department... Karen hails from Garfield. - - - - GEORGIA JEFFERS and family returned recently from a weeks vacation in Florida. They had lovely weather - in the 80's. - - - - The flu bug has been quite busylately. HOWARD SUTTLE and EM LOVELESS had a bout with the old bug. - - - - PHYLLIS WRIGHT and CAROLE BROWN will be leaving shortly to await the arrival of the stork.

THANKS TO BLOOD DONORS -----

Our thanks to BOB BYERS, CHARLES SMITH and GALEN MITCHELL who so willingly donated their blood for Charles A. Kelley, father of JAMES R. KELLEY.

SOUTH PLANT

MERTIE MONTGOMERY reports the South Plant office has been busy and DUKE TAYLOR is helping out with the daily work. - - - - Wonder who the guy is that has ordered a new white Chevy with red interior? We'll be watchin' for it on the lot and report the proud owner next month. - - - - "DING" DENGES and MAX MOORE report they know a lot but it can't be printed. - - - - CHARLES ENNEN has been back to work awhile but he is still protecting the finger he just about lost to a power saw. - - - - TOM SMITH went to Indianapolis March 20th sweating out his physical examination for the Army. He left with well wishes from his cheerful comrades hoping to find him in A-1 condition. - - - - MERTIE MONTGOMERY is doing some remodeling at her house, swinging the sledge-hammer to help her husband, Paul break old tile so new can be placed. Mertie's fingers will never type the same.

DANGER - CARBON TET

How much carbon tetrachloride can you breathe without being harmed? The safety limit for carbon tet vapors is only 25 parts in a million parts of air! Translated into everyday terms, this would be the same as vaporizing only $\frac{1}{2}$ -teaspoon of carbon tet in a room 10 feet long by 10 feet high. Don't try to rely on your nose to warn you of dangerous concentrations. Most people can't detect carbon tet until it reaches 80 parts per million of air. By then it may be too late. Read the label on a cleaning fluid carefully. If it contains carbon tet, use it only out of doors or where ventilation is excellent.

SOME TIPS FOR THE ROAD

Do-It-Yourself Alertness Test: How alert are you behind the wheel? Test yourself from time to time by noting what your eyes are doing. The eyes of a good driver are moving constantly, checking the road ahead, the rear-view mirror, side roads, the actions of other vehicles, pedestrians. If you find you're just a road-starer-at-er, you should make a conscious effort to keep your eyes in motion. In driving, your eyes are "on the ball" when they're more than just on the road.

If you have an Insurance Claim don't forget to report to the Personnel Office so proper papers can be filed with your doctor and hospital.

Remember: NO COMSOL BUSINESS ON MONDAYS....

In need of Safety Shoes? Order them today from the Personnel Office.

ACCOUNTING DEPARTMENT

The new voice you're hearing on the phone these days is the latest addition to the Accounting Department, FRAN KASSEL. She is replacing BETTY YOUNG who left us two weeks ago. FRAN went to Bloomington one friday evening to see the stage play of "My Fair Lady". We understand THELMA KELLY saw it last week. - - - The flu bug really bit our department this last month. Those included on our sick list were ESTILL ROTH, ROSE GAYER, DELTA JONES, LOUIE GODSCHALK and THELMA KELLY. - - - NORM PRICE was about ready to start practicing writing with his left hand, but he finally decided to see the doctor about his bursitis. - - - After three weeks LOUIE GODSCHALK was glad to welcome the little woman back from a trip to Arizona. Louie thinks batching is for batchelors. - - - "Three-car-ESKEN" is now back down to two cars after having sold one to EMMETT LOVELESS. - - - FRANK DIEKHOFF was gone a few days when he attended the National Directors Board Meeting of the Data Processing Management Association. It was held in Chicago. - - - ESTILL ROTH has not exactly endeared himself to his neighbors with the new fertilizer which he is spreading on his garden. It's not "Hi-D" that he is using but rumor has it that it may be "Good-bye-Estill" if he doesn't get it spaded under pretty shortly. - - - DELTA JONES is the proud owner of a red and white '63 Ford galaxie convertible. - - - We received the good word that PATRICK KENT YOUNG arrived on St. Patrick Day. The parents are BETTY and FRED YOUNG. Congratulations from the CSCers Betty.

C.S.C. RETIRED CLUB

The Retired CSC Club met Tuesday March 5th, at the V.F.W. on South 13th Street with thirty-one present. - - - The sick committee reported LES BOYLL, BILL STREETER, WALTER WHITAKER on the sick list, also reported that RALPH HOLLINGSWORTH was feeling some better. He is able to get down to the basement once in a while. EFFIE DEHART was also reported sick. LES BOYLL has moved from the Rose Home to the home of his daughter. The Personnel Department sent a bunch of picutres of the retired ones, for anyone to have that wanted them. The door prizes went to MRS. CHARLES UNDERHILL, MRS CALE PRICE AND WILLIAM SMALL. The next meeting will be on Tuesday, April 2, 1963. All oldtimers are welcome. Refreshments will be served.

ENGINEERING DEPARTMENT

It seems that several of our Engineering Personnel and families have been enjoying the Trianon Ice Skating Rink lately. DR. ROGER NEWTON has just recently joined the newly formed adult skating group here in Terre Haute and was photographed by our Terre Haute Star roving photographer with his partner, Mrs. H. B. Cannon, performing some intricate steps. Jean Dinkel, wife of BOB DINKEL is also a member of the club and her picture appeared a few days later too as one of the avid members of ice skaters. - - - - We are happy to welcome MYRTLE MITCHELL back in Engineering Department after a bout in the hospital for five weeks. - - - - DUNCAN THOMSON is recovering at home now from his recent operation and is doing quite well. We will be glad to have Dunc back with us again. It seems that we no more than get some of our personnel back with us after a siege of illness than we lose another one to the hospital. It has really been rough going in Engineering with illnesses since the first of the year. - - - - AL MILLER was recently honored by being called upon to serve on the Career Guidance Program as Counselor for about 80 Garfield Students, who were interested in the field of Engineering. - - - - PAUL GROVER, we understand, is now on a musical kick with Stereo sound which he has just installed in his home. We hear that it is quite a big production. It is said that since he has been playing it that sounds not fit for human ears have poured forth and has attracted a lot of alien dogs to the neighborhood. - - - - Looks like the ducks and geese are going to take over the DALE COTTOM Ranch. Rancher Cottom is fighting 'em tooth & nail - in fact - has Washington, D.C. in a dither with everyone from J.F.K. down, receiving his protest letters. It's nothing exciting for him any more to receive mail from Secretary of Interior Udall, Senators and on down. - - - - JOHN GRENCHE has just acquired another Boy Scout in his family as his youngest son, Larry, joined this past week. John's son, Chuck, is already an Eagle Scout. - - - - J. F. DUDLEY was a visitor in Engineering this past week.

RESEARCH NEWS

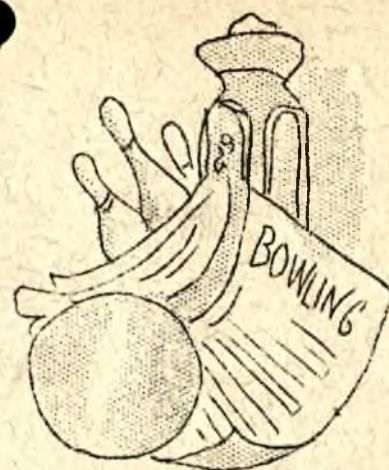

GEORGE THRASHER and DAVE HOWE have been on the sick list for a few days and were a bit "droopy" for several days after returning to work. - - - - "GOV" LESLIE "lost" another child to matrimony. His son Butch walked the aisle a while back then went to Lafayette to work. - - - - GEORGE THRASHER is out of his office considerably these days on some kind of a secret and hazardous mission or something - anyway we're afraid to report, at this time, where he's hanging out.

Q.S.C. MEN'S BOWLING LEAGUE 1962 - 1963 SEASON
STANDINGS AS OF MARCH 13, 1963

<u>TEAM</u>	<u>WON</u>	<u>LOST</u>
1. Office	21	12
2. Rascals	19½	13½
3. Maintenance	18	15
4. Petrochemicals	17	16
5. Process	16½	16½
6. Engineers	13½	19½
7. Topplers	13½	19½
8. Chemists	13	20

The Office were on their favorite alleys last week and they went into a 1½ game lead over the Rascals. Their three game sweep over the Petrochemical team on alleys 11 and 12 gave them a 22 win 2 lost record on this pair for the year to date. The Office and Rascals meet March 20 and the out-come could well decide the winner of the second half. In a real close race such as we have all the teams still have a good chance at the winners circle as we still have 15 games to go. The bowlers have found the range as we had forty eight 200 games this last month and 33 series over 540, they are listed below.

200 GAMES

LATT LINES

"How does it feel to be a retired operator?"

A man was filling out a job application blank and came to the question "Have you ever been arrested?" His answer was "no." The next question was "Why?" and was meant for those who answered in the affirmative. Never the less he answered it with, "Never got caught."

Responding to a knock on the door a housewife found a man standing apologetically before her. "I just ran over your cat," he told her, "and I'd like to replace her." "Well get busy," snapped the housewife. "There's a mouse in the pantry."

They were having one more at the bar when an old friend, previously quite normal, came through the door, walked up the wall, across the ceiling, down the other wall and disappeared out the door. There was a moment of silence, then: "What in the world's the matter with that guy?" "Yeah, he didn't even speak to us."

A Rumor is about as hard to unspread as butter.

One lightening bug to another: "Gimme a push, my battery is dead."

A texan arrived in Niagara Falls in the evening and did a lot or bragg-ing before he retired. Next morning they showed him the Falls and said, "You haven't seen anything like that in Texas, have you?" "No," admitted the Texan. "But we've got a plumber in Houston who could stop that leak in ten minutes."

It's funny but it works. Take your house number and double it. Add 5, then multiply by half a hundred. Add your age, then add the number of days in a year (not leap year), and subtract 615. The last two figures will be your age; the others will be your house number.

There was this doctor who was taken to the patients room but came out in a few minutes to ask for a cork-screw. In five minutes he was back, and asked for a screwdriver. Soon after, he came out again and demanded a chisel and hammer. The distraught husband couldn't stand it any longer and asked: "For heaven's sake, doctor, what's wrong with my wife?" "I don't know yet," the medic answered, "I can't get my bag open."

Sign in wallpaper and paint store: "Husbands choosing colors must have note from wives."

A hen-pecked husband was terribly disappointed when his wife gave birth to a baby daughter. He confided to a friend, "I was hoping for a boy to help me with the housework."

Nature does make mistakes. Sometimes she puts all the bones in the head and none in the back.

ENGINEERING DEPARTMENT

It seems that several of our Engineering Personnel and families have been enjoying the Trianon Ice Skating Rink lately. DR. ROGER NEWTON has just recently joined the newly formed adult skating group here in Terre Haute and was photographed by our Terre Haute Star roving photographer with his partner, Mrs. H. B. Cannon, performing some intricate steps. Jean Dinkel, wife of BOB DINKEL is also a member of the club and her picture appeared a few days later too as one of the avid members of ice skaters. - - - - We are happy to welcome MYRTLE MITCHELL back in Engineering Department after a bout in the hospital for five weeks. - - - - DUNCAN THOMSON is recovering at home now from his recent operation and is doing quite well. We will be glad to have Dunc back with us again. It seems that we no more than get some of our personnel back with us after a siege of illness than we lose another one to the hospital. It has really been rough going in Engineering with illnesses since the first of the year. - - - - AL MILLER was recently honored by being called upon to serve on the Career Guidance Program as Counselor for about 80 Garfield Students, who were interested in the field of Engineering. - - - PAUL GROVER, we understand, is now on a musical kick with Stereo sound which he has just installed in his home. We hear that it is quite a big production. It is said that since he has been playing it that sounds not fit for human ears have poured forth and has attracted a lot of alien dogs to the neighborhood. - - - - Looks like the ducks and geese are going to take over the DALE COTTOM Ranch. Rancher Cottom is fighting 'em tooth & nail - in fact - has Washington, D.C. in a dither with everyone from J.F.K. down, receiving his protest letters. It's nothing exciting for him any more to receive mail from Secretary of Interior Udall, Senators and on down. - - - - JOHN GRECH has just acquired another Boy Scout in his family as his youngest son, Larry, joined this past week. John's son, Chuck, is already an Eagle Scout. - - - - J. F. DUDLEY was a visitor in Engineering this past week.

RESEARCH NEWS

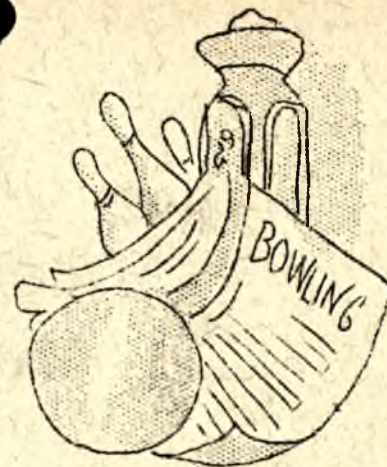

GEORGE THRASHER and DAVE HOWE have been on the sick list for a few days and were a bit "droopy" for several days after returning to work. - - - - "GOV" LESLIE "lost" another child to matrimony. His son Butch walked the aisle a while back then went to Lafayette to work. - - - - GEORGE THRASHER is out of his office considerably these days on some kind of a secret and hazardous mission or something - anyway we're afraid to report, at this time, where he's hanging out.

G.S.C. MEN'S BOWLING LEAGUE 1962 - 1963 SEASON
STANDINGS AS OF MARCH 13, 1963

<u>TEAM</u>	<u>WON</u>	<u>LOST</u>
1. Office	21	12
2. Rascals	19½	13½
3. Maintenance	18	15
4. Petrochemicals	17	16
5. Process	16½	16½
6. Engineers	13½	19½
7. Topplers	13½	19½
8. Chemists	13	20

The Office were on their favorite alleys last week and they went into a 1½ game lead over the Rascals. Their three game sweep over the Petrochemical team on alleys 11 and 12 gave them a 22 win 2 lost record on this pair for the year to date. The Office and Rascals meet March 20 and the out-come could well decide the winner of the second half. In a real close race such as we have all the teams still have a good chance at the winners circle as we still have 15 games to go. The bowlers have found the range as we had forty eight 200 games this last month and 33 series over 540, they are listed below.

ACCOUNTING NEWS - - - - -

If you've noticed, there is a brand new cream and brown 1963 Chevrolet Impala in the parking lot these days. It belongs to BUD BRUSSELL. - LOUIE GODSCHALD is on vacation this week. He says he'll go somewhere only "if the spirit moves him". - - - FRANK DIEKHOFF and BILL

ESKEN celebrated a birthday this month. - - - BILL ESKEN seems to be improving his bowling lately. He claims he got SIX strikes in a row this past week.

ENGINEERING DEPARTMENT - - - - -

ADRIAN STANLEY has a new grandchild - a baby girl born to his son and daughter-in-law last week in Connersville. This brings the count up to 14 grandchildren for Adrian. - - - ELLEN BARBARICK made a trip by plane over the Eastern Holidays to Atlanta, Georgia to visit her sister and brother-in-law and children. - - - The hospital claimed another one of our Engineers this past month as ED ERICKSON had quite a bout with bursitis. ED is back now and is in the pink again. - - - Engineering has two men in the Department who will receive their 20 year pins this year, namely, DUNCAN THOMSON and JOHN GROPP. DUNC and JOHN are looking forward to their gold watch so that finding the time of day will be much easier than craning their neck to see the clock on the wall. - - - RAY HEIDENGER left this week on his vacation. RAY usually goes this time of year to Florida, but due to having two granddaughters now, he thought he would enjoy it more to visit his daughter and family in Wilmington, Delaware. RAY also plans to look up ED WYATT, one of our former Engineers, who is now located with the DuPont Company in Wilmington. PAUL GROVER has a new grandson, Timothy Paul, born on Good Friday.

NON BEVERAGE - - - - -

Thru the "keyhole".

Will "Possum" HUNT persuade RUSS KINDLE to retire this spring?

Will RUSS KINDLE finally develop a breed of hogs which will hibernate through the winter, without feed, no less?

Is it true that PETE LATTA is forming a company to manufacture bird houses?

How come since the north still tower has been started, Possum is so happy and Russ is not so happy?

Does anyone know why HARRY ROTH doesn't get the Wall Street Journal?

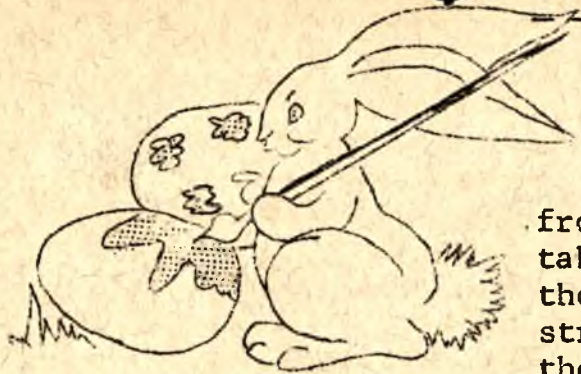

How many more bottle caps will G-Man McCUTCHAN have to save to buy that car?

If and when there are answers to the above questions, they will appear in the future copies of the Spirit.

IN MEMORIAM

CHARLES "SLIM" LEON passed away April 5, 1963 after a long illness. Mr. Leon had been retired on a disability pension since March 31, 1946.

ELECTRIC SHOP NEWS - - -

Signs of spring are in the air. BOB BYERS and family are on the move. What's the story on this new home? More floor space. - - - RAY HIGGINS has returned from a weeks vacation. - - - FRANK LATTA is taking a week off with the children. A nice thought Frank. - - - Just to put things straight, If you see a man limping around the plant, don't mistake him for "Chester Good" of "Gunsmoke". It's just GEORGE DAVIS with a bad case of the shingles. - - - By the way, have you noticed the set of transformers across the track from the recreation room? They are not new, just reconditioned and set in place of the old one by our crew. A good job by a good crew. Thanks fellows.

RESEARCH LIFE SCIENCE - - -

CHUCK RING enjoyed a week's vacation (he only gets one a month) at home playing, painting, rejuvenating the lawn and otherwise catching up on his rest. - - - We were glad to have "CURLEY" KEEGAN as Chuck's vacation relief. - - - CHARLIE BRIDWELL became proud grandpa for the second time (a second grandson). - - - "TOBE" BARRETT still hasn't figured out why DRS. THRASHER and HOWE were "so sure" that Garfield would win. But TOBE was very happy to capitalize on their confidence. - - - Everyone over 20 (or 40) remembers the old fashioned Drug store cowboys that put \$100 saddles on \$10 horses, DAVE HOWE has a new twist, He spends \$50 on a \$15 bicycle - an overdrive, new tire, new seat and "top" -- but he thinks he's airborne now. Speaking of airborne, DAVE is pretty "swelled up" about his daughter LENELLE who was recently honored as one of the fifty most outstanding women students at the University of Missouri. The award is sponsored by Theta Sigma Phi, National Honorary Journalism Fraternity for Women and is based on grades and activities.

CHEMICAL PILOT PLANT - - -

GEORGE LONG has joined the Chemical Pilot Plant group. He was immediately welcomed by his first shift of hoot owls. - - - KENNY ATKINSON is spending a weeks vacation at home. He claims he has lots of work to do. We think he wants to recover after filing his income taxes. - - - LAWRENCE "REMBRANDT" BYERS has become active in his usual summer pastime. - - - VIRGIL FAGG may be considering the purchase of the half of Clay County he doesn't already own. He wants to start a duck farm to compete with the government. - - - JOHN BITTS is eagerly anticipating mushroom season. He hasn't said whether MINNIE likes to cook them as well as he likes to pick them. - - - BEN TRUSTY has returned from a weeks vacation and reports they are as enjoyable this year as last.

DR. KLUSSENDORF showed his slides of Mexico and the Rose Bowl Parade. They were enjoyed by all. - - - Things are back to normal again for a while since GEORGE HINES has returned from Italy. - - - You can tell spring is here, all the girls are turning up with new short hair do's. - - - PAULINE CHERRY and PHYLLIS SCHLEGEL went on a shopping spree in Indianapolis. Wonder if there is anything left in Indianapolis? - - - A recent visitor from Sterlington, HOWARD HIGGINS, spent a couple of days in the Terre Haute Plant, and

while he was here he found time to take PAULINE and PHYLLIS to the Holiday Inn for lunch; wonder if he was paying off a bet?

WANTED: Good Home for a Good Big Dog. "Flyn" half collie, half police dog year and half old. Excellent watchdog for house and kids, has been "kid and house broke," has all his shots. Is bounding, tail wagging good health. Needs a place he can run and older kids to play with. Present junior owners too small to give him the rough house he likes. For further information on this Canine Wonder call Extension 229.

ANTIBIOTICS - SHIFT # 1 - - - - -

HENRY BUSH picked up the slack on shift # 1 while BUSS REED, paid a visit to the man with a knife at Union Hospital, your shift wishes you a quick recovery Buss. - - - A new face on shift work again belongs to JIM CLEMENTS. - - - If we read in the papers that HANK MODESITT is in jail we'll know he got caught at that fishing hole where he's been catching all those bass. - - - Wonder why PETE FRAKES makes a trip to the Free Acid Area once every day? - - - CARL HUNT is on as compressor operator for awhile, for retired CHARLIE ALBRIGHT. We all hated to see him go, (a nice fellow). - - - Wonder what TOM SAPPINGTON did with that magicwand he had for awhile. - - - BOB KLUG had a couple of unexpected guest's down at his camp the other evening for supper, wonder who? P.S. Fellows Mrs. Klug is a good cook too.

WATSON, SR. and MRS. WATSON will be married forty-nine years April 19th. VERN mentioned that he spent seventeen years with CSC. - - - If anyone needs an unusual clock from the Watusi tribe in the Congo please call HENRY FICK or BOB TAPY. IT seems they have personal contacts. - - - Mr. & Mrs. GEORGE APPELL have a new grandson, Glenn Freyer, born April 1, 9# 8 oz., son of Mr. & Mrs. Kenneth (Joan Appell) Freyer. - - - EMMETT LOVELESS and ADRIAN RAY are incorporators and members of the board of directors of the Honey Creek Egg Farms, Inc. - - - LOIS PRICE was unable to report news for the RETIRED GROUP. She was unable to attend their last meeting, as she was in an automobile accident and was admitted to Elkhart General Hospital. She is home, but not able to get out. - - - Those on our sick list and off work are; BILL ALLEN, JOE CLAY FRANK COLLINS, RAY FLINT, HERB HOFMANN, VOLNA REED, WALT VALENTINE, JAMES PAYNE, ERNIE REYNOLDS AND TOM MODESITT.

TRIED AND TRUE ADVICE FOR A YOUNG EXECUTIVE (Executive Digest 2'63)

Don't be afraid to make mistakes. If you risk little, you will probably win little. Welcome ideas from your employees. Good ideas from the rank and file are a credit to you as well as to the originator and no executive worth his salt ever feels threatened by a good idea, whatever its source. Always keep your promises. And don't make promises you can't keep. Never underestimate your fellow man. Good ideas can come from humble sources. Fertile minds are not always labelled with a college degree. Learn to use "horse sense" in dealing with others. In other words, learn to treat others as you would like to be treated. Keep in touch with key members of your department. Don't shut yourself up in an "ivory tower" and don't depend upon assistants to do all your leg-work for you. In controversial matters, especially, get the story yourself. Delegate responsibility to subordinates. By doing so, you do three things: You ease your own work load; you train deserving workers for more important posts; and you groom a competent successor who is ready to step into your shoes when it's time for you to move up the ladder or when retirement comes.

Thank God every morning when you get up that you have something to do which must be done, whether you like it or not. Being forced to work, and forced to do your best, will breed in you temperance, self-control, diligence, strength of will and a hundred other virtues which the idle never know. -- Charles Kingsley.

A slave was thrown into a pit with a man-eating lion. When the lion charges, the slave deftly stepped aside and whispered into the lion's ear. The crowd in the arena was dumbfounded to see the lion slink away and cower against the arena wall. Everyone demanded to know what charm the slave had used. I used no charm, only my common sense, said the slave. All I did was tell the lion he'd be expected to say a few words after dinner.

CANDID SHOTS FROM AROUND THE ROOM—

T W E N T Y Y E A R D I N N E R M A Y 9 , 1 9 6 3

The evening of May 9 in the Mayflower Room of the Terre Haute House was the scene of the Twenty -Second Annual CSC Twenty Year Club Dinner Dance. Approximately 550 employees and guests gathered to greet old friends and to welcome thirty-eight new members into the Twenty Year Club.

Those honored this year for twenty years of service were, ARMIE H. BAILEY, JAMES C. CONLEY, NORMAN ENNEN, WILLIS E. FISHER, EVERETT A. FOGEL, WILLIAM W. FOXWORTHY, JOHN L. GROPP, ROBERT J. HARKER, JAMES W. HAYWARD, WILLIAM H. HERAMB, LAWRENCE R. JONES, BOBBY R. KEEGAN, CARL E. KELLER, DOROTHY G. KISNER, MELVIN A. LIFFICK, WILLIAM C. LOWDERMILK, MORRIS R. LOWE, J. RUSSELL LOWE, ROY V. LUCAS, STELLA M. MARKOWICZ, JAMES W. MATHERLY, LYLE F. MC KNIGHT, ROBERT W. MILLER, ERNEST H. MILLS, HARRY E. MODESITT, CARROLL W. NEWPORT, COY A. ORMAN, J. WILLIAM ROBSON, MARION G. RUKES, MYRON D. RUKES, LEO W. SHAFFER, JAMES H. STEUERWALD, RAY W. TALLEY, DUNCAN THOMSON, PHILLIP E. VAUGHN, DEWEY E. WESTFALL, CHARLES A. WHITLOCK, and JOHN C. WRIGHT.

Mr. J. E. WHEELER presented beautifully engraved gold watches to each of the above new members while at the same time humorously recalled incidents of their past.

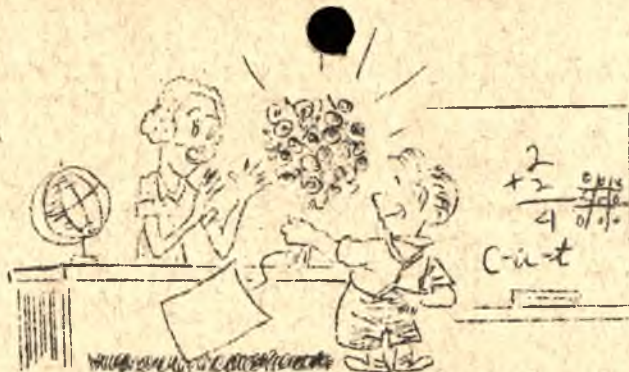

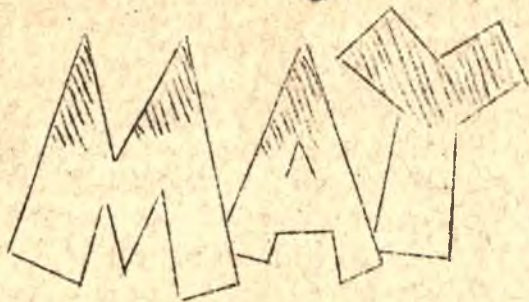

A delicious dinner served at 6:30, consisted of relishes, boned breast of chicken, tater tots, italian green beans, strawberry fluff, rolls, coffee, ice cream with lemon sauce. There were afterdinner mints and cigars.

The room was decorated with beautiful eye-catching floral arrangements and the corsages were prettier than ever. Dinner music was furnished by Bill Balduzzi at the organ. Reverend Allan Harlan, Associate Rector, St. Stephens Episcopal Church gave the invocation. WILBUR KEKO, as master of ceremonies introduced our guests at the speakers table and their lovely wives. There were Mr. & Mrs. Lee Webb, Rev. & Mrs. Harlan, Mr. & Mrs. Wayne Warren, Mr. & Mrs. Sidney Gill, Mr. Robert Mixter, Mr. & Mrs. J. E. Wheeler, Mr. & Mrs. Maynard Wheeler, Mr. & Mrs. Clyde Ellis, Mr. & Mrs. M. T. Walton, Mrs. Keko, Dr. & Mrs. G. W. McMillan.

Dr. McMillan introduced Mr. M. C. Wheeler as the speaker of the evening and the crowd stood as one and welcomed him with applause. Mr. Wheeler's speech emphasized opportunities for Commercial Solvents Corporation to move ahead in the years to come are brighter now than they ever have been. .. We are building for the future by applying the principles that have made Commercial Solvents a world-wide source of chemicals for agriculture, industry and health.

Following the dinner, there was dancing in the Mayflower Room to the music of Bernie Hayworth's Orchestra.

We were unable to obtain the group picture of the Twenty Year Members for this issue of the "Spirit", but will have it in the near future. Our special thanks to those who helped make the dinner dance the huge success that it was.

Now that bowling is over the maintenance crew can look back over the numerous nights and feel with pride the fact they even finished in the money. We can say with great reservation that everything in or out of the book was thrown at our team. The meanest factor being the threat of placing the whole team in the boiler room for an indefinite period. But all joking aside there is one thing none of the other teams can beat us at and that is at the bowling banquet table. With food like that we'll stay on top with the best. The Maintenance team wishes to thank Mr. Keko and C.S.C. for a much appreciated dinner. - - - A review on the shop news is about on schedule. ROBERT BYERS has taken two weeks to move into his new home, PAUL CATON afforded that new car, GEORGE DAVIS is walking without a limp, FRANK LATTA is still smiling, DON PAYNE got a new hair cut, RAY HIGGINS is back and on the move, HOWARD RUBE has added a bicycle to his mode of travel and HAROLD HENSCHEN is still looking for new bowling equipment.

RUBY TUCKER spent a week of her vacation home cleaning house. --- RUTH PROVENCE spent a week down over the hill working on M S G. Says she is ready to go back. RUSSELL KINDLE is on vacation feeding hogs. FORREST HUNT was seen in the Terre Haute House last Thursday with some young lady so HERMAN PARSONS said. - - - RED WOLFE was seen rushing around in the shipping room, Non Beverage and D.P. shouting "has anyone seen my glasses." - - - PETE LATTA is going on vacation next week and POSSUM will be in "charge". - - - JIM STEUERWALD can't sleep at night because of rabbits playing under his bed, seems his daughter has claimed two baby rabbits. If anyone knows where he can buy a corn planter tell EVERETT FOGEL. - - - WILLIE AULD is pinch hitting for RUSSELL KINDLE. --- VERN HEWITT has his eagle eye upon us. Take care of us Vern.

ENGINEERING NEWS

Once again it's vacation time and some of our Engineering personnel are enjoying a well deserved rest. - - - JOHN GRENCHE and wife have just returned from a Florida vacation on the east coast - just like a second honeymoon says John since the children did not accompany them this time. JOHN GROPP too has been enjoying the past two weeks just resting at home. RAY HEIDINGER returned from his Wilmington Delaware vacation two weeks ago with colored snapshots of his two grandchildren. - - - Also on the vacation list is BENTLEY BROWN, having just returned from Stockton, California where he and his wife visited their daughter and family after their long sojourn in Canada. - - - We have had some of our traveling engineers back with us lately. We see them so seldom that we practically have to introduce ourselves again. BOB WALTERS comes in on Monday morning and then takes off for Dallas for the rest of the week. - - - BENTLEY BROWN has just returned after about two months in the Northwest, namely, Medicine Hat, Alberta, and MIKE HARMAN was with us last week having been gone for two or three months at a time. He has returned to Sterlington and it will probably be another two months before we will see him again. - - - AL MILLER enjoyed his 30th Homecoming Anniversary at Purdue last week. AL and MAUREEN motored to Lafayette for the weekend and the big occasion. AL reports there were even members there from the 1898 graduating class enjoying themselves tremendously. It seems that AL's Class of 1933 were just considered "kid stuff" among these oldsters. - - - ERNIE DANNER has been helping ED ERICKSON lately checking on a small furnace at the South Plant. As a result, ERNIE warns everybody who is working with ED to be careful "of the big wind".

C. S. C. RETIRED NEWS

The Retired C. S. C. Group met at the V. F. W. Hall on May 7th with forty - two present, twenty three members and 19 social members. The sick committee reported that they visited RALPH HOLLINGSWORTH and ELZA RING. - - - The group was sorry to hear of ROY KLAUS's mother had passed away, also our own retired member LES BOYLL. The door prizes went to ERNIE FAGG and MACK MC CULLOUGH. - - - LOIS PRICE attended the meeting, takes more than a fractured back to keep her down. Dr. Topping says she'll have to wear her brace all summer.

IN MEMORIAM, DEAN W. NEWLIN

The death of Dean W. Newlin, May 18th, was a great shock to the family and friends, as well as those of Commercial Solvents Corporation in which he had many.

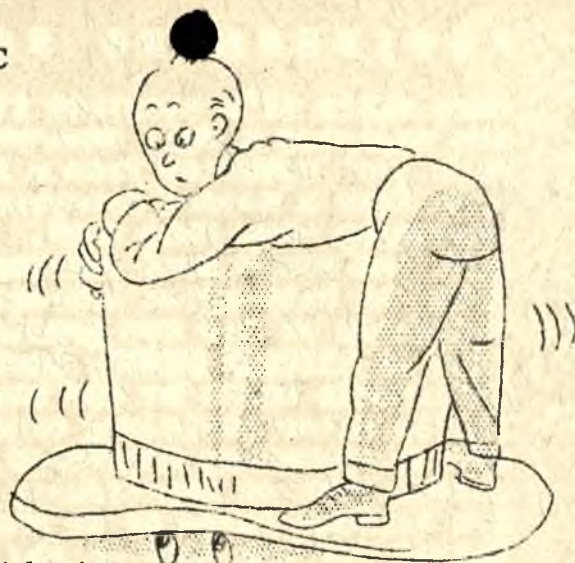

Dean Was employed with C. S. C. in 1941 and worked some in Maintenance and the cistern room. He entered military service in 1942 and returned in 1945 where he spent the last eighteen years in the Alcohol Division.

We extend our sincere sympathy to Mrs. Newlin, daughter and family, knowing they have suffered severe loss. We at Commercial Solvents also have lost one of our loyal and conscientious workers.

KEEP THIS UNDER YOUR HAT ! The Bib CSC Picnic will be held June 22nd at the Lockport plant. We will issue more publicity at a later date.

Although ESTILL ROTH doesn't have a horse, one of his co-workers thinks that there are certain occasions when he needs a saddle. - - - ESTILL has accomplished two major feats this week. First of all he acquired a new daughter-in-law. She and his son are home for about eight days. Secondly, he says he's been trying for five years to top MR. KEKO's jackets. This morning he finally did it. He wore his sons bright red blazer. - - - CHARLIE BONAR has joined the ranks of car traders too. He is now driving a nice looking 1960 Chevrolet. CHARLIE drives a pretty hard bargain. - - - LOUIE GODSCHALK has cut down on his smoking of cigarettes considerably, but we understand it is not because of any health hazard. It seems that it has something to do with bridges. LOUIE can't see why they are always picking on cigarette smokers, why not pickle eaters? - - - MR. RON BURTON has joined us again. He's the company auditor. - - - PAN DITTO will become Mrs. Mike Huberti June 16th. The wedding will be held at the Methodist Temple, 2:30 p.m. Invitations were issued only to the immediate family but all CSCers are invited to attend.

IN MEMORIAM

LESLIE C. "LES" BOYLL passed away May 5, 1963 after a serious illness of three months. Les was employed in April 1935 and at the time of his retirement, was in the Maintenance Department as a valve repairman. He had many friends at CSC.

TAKEN FROM "ALCOA ALUMINUM NEWS LETTER"

Gentlemen: Speaking before the Evansville, Indiana Chamber of Commerce in February, Alcoa President Lawrence Litchfield, Jr., talked about profits.

"Profit," he said, " is a motor which powers growth. The bigger our economy grows, the bigger motor it takes to keep it growing."

And about the beginnings of the profit motive in the United States, Mr. Litchfield recalled: "If you turn to the pages of the Constitution of the United States -- as adopted July 2, 1778, -- you will be hard put to find the basis for our present-day business government- labor management relationships. "Article One, Section Eight, of our Constitution provides a basis for Congress to collect taxes and to regulate commerce with foreign nations and among the several states. As we have all known since early childhood, the intent of the provision to regulate commerce among the several states was to make sure that free trade would be maintained -- that no state would raise a tariff against its neighbor.

"Why is the subject of economic participation and manipulation by government so conspicuous by its absence in the Constitution? "The answer is crystal - clear to me, as I hope it is to you. The founders of our nation understood one basic, profound truth. That truth is that private enterprise, with the profit motive and a minimum of government regulation, provides the only practical alternative to government-owned or government-controlled economy. "Why didn't our Founding Fathers want a government-owned or a government-controlled economy.

"Because they understood what too few people understand today. That for the government to control or manipulate the flow of food, clothing and shelter is to provide an environment in which the initiative of the free man is gradually extinguished, until, indeed, government is absolute. They were properly wary of central government control."

Mr. Litchfield said further: "Most important of all -- the profit-seeking philosophy has been the principal guardian of the most sacred of all human values -- the value for which it was originally created. That value is man's right to free choice. That value is freedom!" For a copy of the speech "Is Profit Without Honor?" Write 1250-D Alcoa Building, Pittsburgh 19, Pa.

The smartest person is not the one quickest to see through a thing but to see a thing through.

Every day you hear of something new in medicine. . . the latest is a new wonder drug that's so powerful you have to be in perfect health to take it!

TIP TO MOTORISTS: Don't gamble in traffic - the cars may be stacked against you.

Two reasons why women don't wear last year's gowns: They don't want to, and they can't.

Never felt better, or had less -- just paid my taxes.

Don't get caught in your own mouth trap.

Dorothy, aged six, was watching her mother put cold cream on her face.

"What's that for, Mommy?" she asked.

"It's face cream, dear, to make me beautiful."

A little later, after the cold cream had been wiped off, Dorothy looked at her mother for a minute, shook her head, and remarked sadly, "Didn't work, did it, Mommy?"

A mother was telling her small daughter how to tell time.

"These are the hours, these are the minutes, and these are the seconds, she said pointing them out.

Puzzled, the little girl inquired, "Where are the jiffies?"

The personnel manager was interviewing a man for a job and was going through the usual questions.

"Are you a clock watcher?" he asked.

"Nah. I've never had an inside job. I'm a whistle listener."

Why do they put holes in Swiss cheese when it is limburger that really needs ventilation?

The applicant for a job said he didn't smoke, didn't drink, didn't go out with wild women, didn't loaf. The boss said he was amazed because the man didn't seem to have any vices at all.

"I have only one," the applicant replied. "I tell lies."

People come in three classes:

1. Those who make things happen;
2. Those who watch things happen;
3. Those who don't know "what happened."

KEKO'S COLUMN

Well, it looks like I've been playing possum for several months. It's about time I crawl out of my hole and write a column.

I don't think the Cokes in the Plant taste a bit sweeter now that we have to pay a dime for them. However, in the interest of the employees Athletic Association, it was absolutely necessary to raise the price. The employees' Athletic Association would operate at a loss if we had kept the Coke price at six cents. Sorry, but this was absolutely necessary to keep the Athletic Association solvent.

I hope every employee has read or heard the new bulletin regarding the use of medical people in first aid cases. Each and every one of you should be prepared for an emergency, so be certain that your foreman or department head passes on the information to you.

There has been a shift in personnel down over the hill. JOHN BANNISTER has been made Department Head in charge of MSG Recovery. BOB STUCKEY has been named Supervisor of Bacitracin and Cycloserine operations. He will report to BOB JONES. Congratulations to both of you!

We have been invaded by our usual group of summer time school boys. Any resemblance of one of these to me is purely coincidental. I noticed one advantage with this summer time help--I get to work on time now. See you all at the Picnic on the 22nd.

RETIRED NEWS

The Retired Commercial Solvents Group met at the Veterans of Foreign War on Tuesday June 4th. Door prizes went to Mrs. ED NASH and Mrs. ERNEST FAGG. Sick committee reported that they had called on "SLIM" CORTHUM. Said he was home from the hospital and improving. BILL SMALL was the first one to bingo. The group will meet next month on July 2nd. at the Deming Park, at the Ouabache Oven, the first shelter when you drive up the hill. Everyone is to bring a picnic dinner, so lets' everyone turn out for this, "that is able."

Twelve of the retired members were in the plant last week making plans for their ice cream social. They were, LOUIE PELKEY, JIM CLEMENTS, JOHN CLEMENTS, B. J. MC INTYRE, CLAUDE THOMPSON, SOL DE HART, BILL MOSEMAN, ROLLIE MOORE, WALTER WHITAKER, BILL SMALL, EIB TINGLEY and AMOS HADDIX. They are in the market for donations of pie and cake for the social which will be held July 26th. The social tickets will be on sale at the picnic Saturday, June 22 from the retired members or Personnel Department. The cost is only 25 cents. More about the July 2nd meeting. Please bring own service, coffee will be furnished. Bring cold drink if you desire. Also don't forget white elephant gift. Dinner at 12:30.

NOTE TO THE 1963 TWENTY YEAR MEMBERS:

You still have time to order a group picture. A copy is posted in Personnel Office.

ENGINEERING NEWS

Engineering finds many of our staff on vacation jaunts, namely, ED MOORE, who has just returned from an extensive motor trip through Rocky Mountain National Park, Colorado; Yellow Stone National Park, Wyoming; Wenatchee, Washington, Seattle, Vancouver, Lake Louis, Banff and then back through Glacier National Park, Montana and into Minnesota before returning home to Hoosierland. - - - DOROTHY BATCHELOR is enjoying her vacation down Miami Beach way as she and her daughter, Karen flew to Miami for a week at DiLido Hotel this week. Next week ELLEN BARBARICK will take off for a motor trip to Atlanta, Georgia to visit her sister and family. She will also motor to the Smoky Mountains in North Carolina before returning home. - - - Also on the vacation list is ERNIE DANNER this month as he will spend most of his time attending the ball games in Cincinnati and Cleveland, Ohio and then will go to Baltimore, Md. and Wilmington, Del. for a family wedding and reunion. He will return via Chicago for "guess what" - more ball games. - - - Among the new car owners is DALE COTTOM who is now sporting a Fawn colored 1963 Galaxie Ford. DALE also has a new daughter-in-law as his son David was married this month to the former Jacquelin Thompson. - - - Dr. ROGER NEWTON is now on the last lap of winding up his moving of family and furniture from Boston, Mass. to Terre Haute this week and will officially be at home at 3 Elk Drive, Deerfield sometime next week.

RESEARCH NEWS

Dr. DAVE HOWE reports the only thing going on in Life Science is JESS HENSON bought a new willow green Olds 88. The fellows offered to alternate weeks to break it in, but Jess says he can't get it away from his wife, he's only paying for it and still driving the old truck. - - - We were sorry to hear of the unexpected death of ADRIAN STANLEY's mother.

PURCHASING

HENRY FICK was a proud father when both of his daughters graduated this month. Donna graduated from Garfield High School, and Carol graduated from Indiana State College. Carol is teaching school in Indianapolis. - - - BOB TAFY is vacationing in Washington, D. C. for two weeks. He is visiting his daughter. They plan to see the premier of "Cleopatra". - - - Wonder what HENRY FICK will do since the storm ruined his cherished cherry tree?

STORK NEWS

STAFF BUILDING NEWS

TOM CRAIG is off to Italy for a couple weeks. While he is there he is going to check on the delicious food that GEORGE HINES is always talking about. - - - HOWARD HIGGINS will be filling in for TOM - the only thing he has to get use to is the 8 to 5 hours instead of 7 to 3:30. - - - DR. KLUSSENDORF is retiring at the end of the month. The gang presented him with an attractive polelight for his new study he is building at home - hope it sheds lots of light for all his new undertakings. - - - PHYLLIS SCHLEGEL really enjoyed the 500 Mile Race - came back with burnt nose and knees!!! - - - BOB DEWEY has moved to the Patent Department. While MARY DONHAM is on vacation MARY BUCK has been helping out in this department.

ELECTRIC SHOP

The maintenance bowling team enjoyed a get together at "Louises" Friday May 24. Those attending were PAUL CATON, CLARENCE CLEMENTS, GEORGE DAVIS, WES ELLINGER, HAROLD HENSCHEN, SAM JOSLIN, JIM KELLEY, DON PAYNE AND ART PETTY. VIRG HAMELMANN and BILL EVANS were not there because of no invitation. (good reason). SAM JOSLIN was presented with a small trophy for being the most improved bowler on the maintenance team. - - - RAY HIGGINS did it again, he's taking another weeks vacation. - - - HOWARD RUBE is quite busy getting the girl scout camp ready for the summer. - - - BOB BYERS is eating his lunch at the plant - mileage plus railroads equals cold sandwiches. FRANK LATTA ran across some old acquaintances' while working at the lagoon.

SURE CURE

A pharmacist found it necessary to leave his drugstore one day. He asked his soda clerk to keep an eye on things until he returned. No sooner had the pharmacist left than in staggered a lushed - up character demanding in a loud voice some medicine to cure his hiccups. The druggist returned and asked if there had been any customers and the soda clerk replied: "Only one, a drunken guy with a bad case of the hiccups." "Well," asked the druggist, "did you tell him to come back when I was here?" "Oh, no," answered the kid soda jerker. "I took care of it myself. I mixed him up a cup of Epsom Salts with Citrate of Magnesia, Castor Oil and Mineral Oil; the I gave him some ExLax to nibble on. He took it right then, too". "Great Scott!" said the druggist, turning pale, "that mixture won't stop the hiccups!" The soda clerk smiled knowingly and said: "Want to bet? Take a look outside; there he is holding on to that lamp post afraid to hiccup!"

Hostess at a birthday party: "I'm afraid that your little brother is shy. He hasn't moved from that one place all afternoon." Little girl: He's not shy. He's never had a necktie on before and he thinks he's tied to somethin'."

Two business partners went fishing in a small rowboat. Suddenly a storm blew up and the boat capsized. One of the men began to swim but his partner floundered helplessly. "John," the swimmer called to the sinking man, can you float alone?" "My gosh," cried John, "I'm drowning and you want to talk business?"

A traveling man walked into a restaurant one morning and sat down at the table. "Bring me two eggs fried so darn hard they're edged in black, two slices of burnt toast, and a cup of cold coffee. Then sit down and nag me for awhile, I'm homesick."

In the championship match of the marble tournament, one little boy missed an easy shot and let slip a real cuss word. "George," called the preacher from the sidelines, "what do little boys who swear when they are playing marbles turn into?" "Golfers," came the prompt reply.

Even back in the Stone Age when women wrote down their ages they were chiseling.

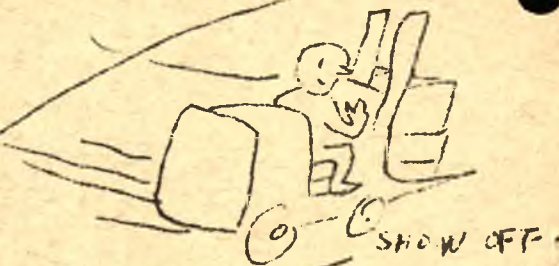

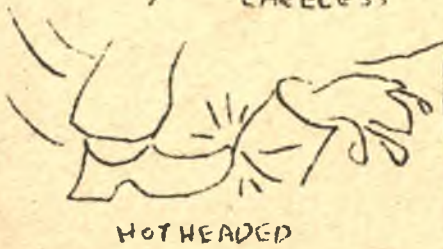

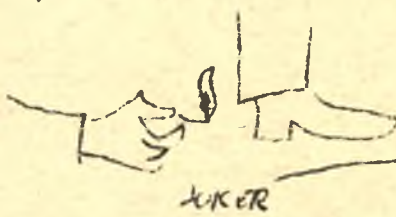

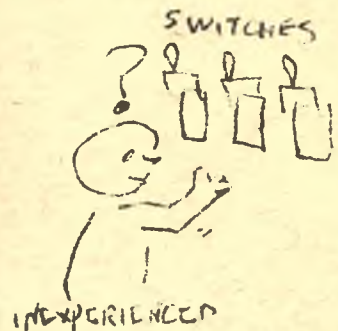

The traveling salesman was telling his cronies of an experience he had had a few days before. "I was driving through the hill-billy country, when I saw targets painted on every tree and post in sight, and each sported one bullet hole in the dead center of the bulls-eye. Curious to learn how any man could be such an accurate shot, I inquired at the village and was amazed to learn that the marksman was the village dimwit. I went over to him and asked, 'How do you happen to be such a dead shot?' 'Easy as pie,' he answered, I just shoot first and paint the target afterwards."

No man has a good enough memory to be a successful liar.

Some of the Golfers went to Indianapolis to watch the pros play. Bob Jarvis was in this group and he kept his eyes open and picked up a few pointers that must have helped as he shot a 41 last week. This was his best round at Rea Park.

The Hackers have a 14 point lead with just one week left in the first half. If they can hold the Rascals next week they should win the first half. Antibiotics still have a chance if they can get a lot of points from Research.

ENGINEERING NEWS

Engineering is still on vacations, namely, HERB HYLTON has just returned to us from Northwest-Nitro in Medicine Hat via a vacation route to Banff, Rogers Pass, Victoria Island, Canada and then to Seattle, Washington and Estes Park, Colorado. We are all glad to have HERB back. - - - ADRIAN STANLEY left last weekend for a vacation trip to Puerto Rico in San Juan. Adrian and his wife will motor first to the Smokey Mountains of North Carolina and then on to Miami, Fla. where they will board a Jet for San Juan and where they will visit his brother who is Comptroller for one of the Rockefeller Hotels there. On their return trip home they will come back via New Orleans, La. We envy them such a fabulous vacation. - - - Our Chief Engineer, HOMER KIEWEG, is also enjoying a combined business and pleasure trip in Canada and its surroundings. FRED DUDLEY has been helping out at our Terre Haute office while Mr. KIEWEG is gone. - - - DUNC THOMSON will leave on vacation this coming week and will spend his time in Syracuse, New York visiting relatives. - - - MIKE HARMAN is trying to work out a schedule to get all of his family together for a reunion the latter part of this month in Terre Haute. - - - BOB WALTERS is still busy commuting to Dallas, Texas and back, but we understand that after all these months in Dallas it took an "outsider" to tell him where the "night spots" are. - - - BOB DINKEL is now getting into the act of Plant Sewer Studies so we are told - probably taking his house boat along - to make the job a little easier. - - - Engineering is now leading the Plant Golf League much to the consternation of KEKO and JARVIS.

STAFF BUILDING NEWS

Our foreign travelers have returned - JOHN "GIOVANNI" T. CRAIG after two weeks in Rome and Milan and GIORGIO E. HINES after 5½ weeks. "Foot Sore" Craig will now admit that it's possible to see all of ancient and modern Rome in one week-end, but that it takes a lot of walking and taking your life in your hands in taxi cab rides to get the job done. The rest of the time was spent working in Milano and one week-end tour of Milano, Lake Coco, and Lugano, Switzerland where J.T. helped Giorgio smuggle in a weeks supply of cigarettes. We have not yet found out why their glasses steam up when they talk of eating lunch at Biffi's sidewalk restaurant nor what the statement means that "Bohannons will never be the same." We suspect that they were feasting their eyes as well as themselves at lunch!! - - - PHYLLIS SCHLEGEL is looking forward to attending the Starlight Musical at Indianapolis starring Van Johnson in "Damn Yankees." She recently saw Cleopatra, which she said was very good but a bit long. - - - After nine months of suburban living PAULINE CHERRY is moving back to the city to her former apartment. Said she really hates to leave her garden - three huge tomatoe plants that are loaded with little green tomatoes which she won't get to sample when ripe.

RUSS KINDLE is on vacation and we hear he finally got some rain on his pigs and crops. - - - "POSSUM" HUNT is working hard in KINDLE'S place RUBY TUCKER was at the East Plant for a few days. - - - RUTH PROVENCE is vacationing in Canada and Alaska. - - - Handsome GEORGE LAVLEY is replacing MC CUTCHAN for a few days as a gauger in the Denaturing Plant. - - - Rumors are that JOHNNIE AULD is going to Arkansas before long.

ELECTRIC SHOP NEWS

PAUL CATON has just returned from a nice three weeks vacation in Hollywood, Florida. Nice tan Paul. - - - DON PAYNE is leaving soon with the family for Wisconsin to help celebrate his Mother & Father in laws 50th wedding anniversary. - - - GEORGE DAVIS has gotten himself one of those house trailers so don't be surprised if he takes off on a tour around the country. - - - FRANK LATTA and DON PAYNE have been trying awful hard to sell an air conditioner. Looks as if it's as good a deal as you say that either one of you would grab it up. What's the matter, is it a "hot item"? - - - HAROLD HENSCHEN drove 1,000 miles to watch it rain five days but did a lot of resting while it rained. Took a lot of pictures of the bares -- that is the 2 footed bares around Daytona Beach, Florida.

CHEMICAL PILOT PLANT NEWS

LAWRENCE BYERS recently completed a weeks vacation. He said he enjoyed visiting friends and relatives in the Galesburg, Illinois area - - - RUSS BREWER is temporarily working in the Sterlington Plant. - - - "BUTCH" NOTTER is spending another week on the Wabash. Butch knows how to enjoy his vacation. - - - DICK HANLEY, EARL WRIGHT, and RUSS BREWER represent the Pilot Plant people on the golf teams. Comments on their success are varied. - - - KENNY ATKINSON tells of meeting an old CSCer. The man is now a patrolman and remembered himself to KENNY with a ticket for an overweight load.

DERIVATIVES NEWS

JOHNNY WRIGHT has entered the role of vegetable farmer in a big way. When asked what he was going to do with all of his produce he stated that he would use what he needed and give the remainder to his friends. There you are friends, see Johnny for the best in sweet corn, tomatoes, beans etc. - - - JIM ROMAN and WIG ARMSTRONG are both searching for old corsets made with staves. Both are suffering from sore back caused by their many hours in the fishing boats. - - - CHUCK HALE and ERNIE LAUFMAN should be able to swap Texas tall tales at shift change time. CHUCK was in Texas visiting his son and ERNIE was there earlier this summer visiting his daughter and family.

MORE RESEARCH NEWS

Last year FRANK MATTISSON went to Cincinnati and the car had a broken connecting rod near Dietz Lake. This year Dr. Mattisson went to Cincinnati all right in the repaired car, but on the way back, in Seymour, Ind., the same connecting rod broke - the car had to be towed in - the family stayed overnight in a fleabag hotel, and the next morning he exchanged that piece of junk ('57 Rambler Rebel) power steering, power brakes, for a small, compact Rambler American '60. "Good old Mattisson" doesn't give up easily, so we are looking forward to what will happen next year to him on a trip to Cincinnati.

I HAD 18 BOTTLES- - -

I had 18 bottles of whiskey in my cellar and was told by the wife to empty the contents of each and every one of them down the sink or else!!!! I said I would and proceeded with the task. I drew the cork from the first bottle and the contents down the sink with the exception of one glass which I drunk. I extracted the cork from the second bottle and did likewise with it, except the one glass which I drank. I then drew the cork from the third bottle and poured the whiskey down the sink which I drank. I pulled the cork from the fourth bottle down the sink and poured the bottle down the glass which I also drank. I pulled the cork from the next one and drank the sink out of it and threw the rest down the glass. I pulled the sink out of the next glass and poured the cork down the bottle. Then I corked the sink with the glass, bottled the drink and drank the pour. When I had everything emptied, I steadied the house with one hand, counted the glasses, corks, bottles and sinks with the other which were 29 and as the house came by, I counted them again, and finally had all the houses in one bottle, which I drank. I'm not under the alfluence on incohol, as some tinklo peep I am. I'm not half as thunk as you might drink. I fool so feelish I don't know who is me and the drunker I stand here, the longer I got. Thash so. OH ME!!!!!!

This is a country of faith. On the installment plan you can buy what you can't afford. On the stock market you can sell what you don't own, and on the tax form they take away what you haven't borrowed yet.

A face without a smile is like a lantern without a light.

A vacation is a short duration of recreation, preceded by a period of anticipation, and followed by a period of recuperation.

Little Mary was left to fix lunch. When her mother returned with a friend, she noticed Mary had already strained the tea. "Did you find the tea strainer?" the mother asked. "No, Mother, I couldn't, so I used the fly swatter," replied Mary. Her mother nearly fainted, so Mary hastily added, "Don't get excited, Mother, I used the old one."

The man asked a woman driver if she would push his car to start it. "With this newfangled transmission, it won't start unless you're going 30 miles an hour," he explained, and hopped in behind his steering wheel. It was raining, foggy, and dark; and after he'd waited a minute or two, he stuck his head out and looked back -- sure enough, there she was ... almost up to his car, and coming 30 miles an hour.

A famed explorer was captured by savages in the wilds of South America. They were dancing around him in preparation for the kill when an idea struck the explorer -- he would awe them with "magic". From his pocket he took a cigarette lighter. "See," he said, "I am a fire-maker!" And with a flick of his thumb, the lighter burst into flame. The savages fell back in astonishment. "Magic!" cried the explorer in triumph. "Sure is," replied the chief. "Only time we ever saw a lighter work the first time."

PILLARS OF ECONOMIC WISDOM

Nothing in our material world can come from nowhere or go nowhere, nor can it be free: everything in our economic life has a source, a destination, and a cost that must be paid.

Government is never a source of goods. Everything produced is produced by the people, and everything that government gives to the people it must first take from the people.

The only valuable money that government has to spend is that money taxed or borrowed out of the people's earnings. When government decides to spend more than it has thus received, that extra unearned money is created out of thin air, through the banks, and, when spent, takes on value only by reducing the value of all money, savings, and insurance.

In our modern exchange economy, all payroll and employment come from customers, and the only worthwhile job security is customer security; if there are no customers, there can be no payroll and no jobs.

The first half was won by the Hackers in a race that was decided on the last hole. McDaniels sank a thirty foot putt leaving the pressure on Orman and Royer of the Rascals. They didn't come through as Orman missed from seven foot and Royer from two. One would have tied and both would have been a win for the Rascals.

IT'S SCHOOL TIME AGAIN!

INDIANA OFFICE OF TRAFFIC SAFETY

AUGUST

OUR PICTURE PAGE - BACK TO SCHOOL SAFETY.

Hoosier children will soon be going back to school, which means everyone in this community must be on the alert. The last week of August and the first week of September mark the "School Opening" period in Indiana. School safety patrols will be operating in each school zone area in this community. Motorists are urged to drive with particular caution whenever they are in the vicinity of a school, park or playground. No traffic casualty arouses greater public indignation and concern than the injury or death of a child going to or from school. The welfare of the school child is an ever-pressing problem with which traffic safety personnel and school safety administrators must cope daily. No one would question the fact that the safety of children is of paramount concern to parents and teachers alike. Many safety procedures relative to school child protection have evolved throughout the state and nation, because each community has held school safety education to be of the greatest importance in any consideration of the welfare of our children. Certainly, the volunteer services of police officers, adult crossing guards and school safety patrols merit considerable recognition and appreciation. Such dedicated efforts represent definite concern for child safety.

ARMIE BAILEY say's there is a new fish out, Flying Fish. Lost all his plugs the other day in the tree tops trying to catch one. - - - MOSE CARLSON lost a bet the other day, then wouldn't pay off - - - RAY FLINT has the secret of catching fish but nobody knows what it is. - - - It seems that MOSE CARLSON has a coin with heads on both sides, HARRY KNIGHT is always buying drinks. - - - EARL LEITGABEL is on three weeks vacation hunting squirrels, getting in his winter supply of meat. - - - "BENNY" BENNETT has been on a weeks well earned vacation, still betting on the White Sox.

I have three personal Ideals. One is to do the day's work well and not to bother about tomorrow. The second Ideal has been to act the Golden Rule as far as in me lay. . . The third is to cultivate such a measure of equanimity as would enable me to bear success with humility, the affection of my friends without pride, and to be ready when the day of sorrow and grief come to meet it with the courage befitting a man.

STAFF BUILDING

MARION TISLOW was busy passing out cigars Monday, August 12th announcing the birth of a new daughter, Melinda Sue. He also proved that Technical Service is on the ball by setting up a walkie-talkie so that daughter, Diane, could talk to her mother and find out all about her new sister firsthand. - - - PHYLLIS SCHLEGEL has taken on an added sparkle, maybe its because of the diamond she received for her birthday - the lucky fellow Doyle Kincaid. - - - PAULINE CHERRY is considering renting office and desk space since PHYLLIS is helping out in the Library, TOM CRAIG is on vacation, and GEORGE HINES is preparing to leave the states again. She said it gets mighty lonesome with no one to talk to. Of course, when GEORGE is in the office she can't understand him because he is usually speaking Italian or German. - - - A new face around the Staff Building is ARCHIE MILLER, who was transferred to Technical Staff Sales Division.

SKY KING BENNETT FLIES AGAIN -- R. R. (Sky King) BENNETT spent considerable time recently as a PRIVATE CITIZEN zooming and whooming in and out of the C.A.B. hearing on just which one of three airlines will connect Terre Haute with the Great West. If Sky King has his way all three will be on tap 'cause when Sky King has to go he's gotta go' - West, that is, and let there be no mistake.

As a token of appreciation for his efforts in advising the Chamber of Commerce, His Honor the Mayor, the Terre Haute Aviation Board, all three airlines, the C.A.B. and various news media, Sky King was presented with a pair of gold junior pilot wings by his admirers in the Staff Bldg. Boy, oh boy, can he pilot.

ORDER DEPARTMENT

GEORGIA (FLAGG) JEFFERS has retired from the Order Department to become a housewife. Friday August 16th was her last day - Her many friends here at CSC wish her the very best of luck as was expressed to her during the luncheon held at Terrace Inn. Again Good Luck, Georgia. - - - PEGGY POWERS has been on vacation for the past two weeks part of her time was spent in moving into her and CARL'S new home out on Davis Avenue, also a little out-door camping and fishing to complete a nice time off. - - - JOHN HOWARD SUTTLE is again this year the Farmer of Indian Acres, ROBERT JARVIS and EMMETT LOVELESS will attest to the good corn that he grows. - - - Has been good to have PHYLLIS WRIGHT back again with the company. She is filling in at the South Plant for MERTIE MONTGOMERY who is off ill. - - - The cute little blond you see in the Order Department is CHERYL GILTZ, and is the daughter of BILL GILTZ in Antibiotics. Welcome to CSC, Cheryl. - - - Golf league season is practically over, but GENE HARTLEY and EMMETT LOVELESS are going into spring training already - LOVELESS should, as team captain BOB TAPY benched him on the final night account his season performance. Bowling talk is now being heard.

TERRE HAUTE TIES FOR 3RD PLACE IN NATIONAL VEHICLE CHECK

Commercial Solvents Corporation was happy to co-operate with members of the local traffic department in their successful Safety Check Program. As a result of this program Terre Haute was recently awarded a National Award of Excellence for its exceptional city Safety Check program. Entries were judged on community participation, percentage of vehicles checked, rejected and rechecked. Congratulations to Captain Pine.

ENGINEERING NEWS

The personnel of the Engineering Department has been suffering lately from one form or another of Car-itis as ED MOORE'S 1961 Chevrolet Pick-up truck was stolen about four weeks ago from the parking lot across the street from Research Building and never recovered. Also, DALE COTTOM and his new Ford was involved in a wreck at 6th & Farrington Streets at about the same time which resulted in bent fender, smashed hood, etc. - - - The Engineering Steno girls enjoyed a noon day cruise recently on the Wabash River as the guest of "Captain" BOB DINKEL on his houseboat. After arriving at a picturesque spot up north, the Captain dropped anchor and BOB also played the role as "Chef" serving charcoaled steak fillets, tossed salad and all the trimmings. This is what you might call a Secretary's dream of an ideal lunch hour. BOB'S boat is a 26' houseboat very neatly fitted with a booth and table for dining, a compact refrigerator and stove, bunk beds and a small canopied porch for sight-seeing and enjoying the cool river breezes. There is even a deck on top for sunbathing. - - - Speaking of boats - PAUL GROVER and DON KEENEY just returned from their vacation, and it seems they spent most of their time cruising up and down the Wabash in their respective boats. - - - ED ERICKSON is on a three weeks trip to Jackson Hole, Wyoming where ED and his wife usually go every year to visit Mrs. ERICKSON'S parents. ED looks forward each year to his annual trout fishing in the mountains. Says there is no fishing like it. - - - ERMA JONES left on her vacation August for Florida, going first to St. Petersburg to visit friends, then on to Orlando and to Daytona Beach and then wend her way homeward via Albany, Georgia to visit friends there. She will be accompanied by her mother and Aunt, Mrs. Hazel Stout of Crawfordsville. - - - JOHN GROPP has just returned from his second round of vacation traveling all over the State of Indiana southward to Evansville and north to Lake Schaffer. John's daughter, Janet, was a lucky winner on the scrabble game sponsored by Marathon Oil Company recently as she won a portable mixer. Congratulations Janet. - - - Coffee service was certainly improved lately in HOMER KIEWEG'S office. It seems that "someone" had been briefed on the fancy cup and saucer furnished at Ford Bacon & Davis at Monroe instead of the plain and "slightly" scarred cups used at CSC, so one morning MR. KIEWEG had the honor of being served coffee "a la mode", served on a tray with fancy tea towel, separate cream and sugar, a new pink Melmac cup with saucer and to top it off a gold bud vase with three pink rosebuds adorned the tray. We dare F.B.&D. to beat that one. - - - We welcome into our Engineering Department this month WESLEY TOBIAS, who was transferred from Peoria to our office on August 5. Mr. Tobias will replace AL MILLER, who is resigning from CSC to accept a teaching position at Iowa State University in Ames, Iowa as of October 1. We all wish AL a lot of luck in his new venture.

C. S. C. RETIRED CLUB NEWS

The retired CSC Club met at the Deming park on August 6th with 33 attending. Mrs. ED NASH, LLOYD PIGG and MRS. ORPHY KEEGAN were the lucky ones to receive the attendance prizes. - - - MRS. ERNEST FAGG donated a beautiful pillow for one of the attendance prizes. - - - MRS. SOL DEHART was the first one to bingo. - - - MR & MRS. CALE PRICE went to Schererville on the week end of the 10th to visit her daughter Mrs. John Rhoads and family. Lois made it back home this time without an accident. - - - Our next meeting will be held at the Ute Shelter at Deming Park on September 3rd. We still have more of the ice cream left, so come out and bring a covered dish. SEE YOU THERE.

ACCOUNTING DEPARTMENT NEWS

BUD BRUSSELL really does belong here although we haven't seen much of him lately. He is spending much of his time at our Peoria Plant these days. - - - Everyone thanks LOUIE GODSCHALK for the nice cucumbers he has been bringing to the office. LOUIE believes in sharing his "Bumper Crop" with us city folks who don't have gardens. - - - If you see a black Volkswagon "flying" at an altitude of 1 foot and at a speed of around 70 m.p.h. between here and Indianapolis it is probably CAROLYN BYERS. Her husband is going to school in Naptown this fall and is currently working there. - - - NORMAN PRICE, DELTA JONES and CHARLIE BONAR are vacationing this week. JERRY SCHALBURG has come up from the South Plant to take care of the mail route. - - ROSALYN GAYER didn't get a new car, just had the old one painted.

IN MEMORIAM

THOMAS WALTERS passed away July 30, 1963 at the age of 88, after a short illness. He was employed in September 1922 and worked approximately twenty eight years in the Engine Room. During his employment he saw many changes in Personnel and made many friends. Mr. & Mrs. Walters attended the Twenty Year Dinner in May and was planning to attend the Old Timers Dinner in September. He was the oldest retired employee. During his employment he was a good, loyal and conscientious worker. We at C.S.C. extend our sympathy to Mrs. Walters and family.

ANTIBIOTIC NEWS

We have 3 new four star generals here in the Antibiotic Department. This month, HARRY (RAMBLER) MODESITT, LYLE (SPEEDY) MCKNIGHT and LEO (THE LIP) SHAFFER. Also on Shift # 2 they have a new cooker helper JOHN L. (BOSTON STRONG BOY) SULLIVAN. Would somebody ask BILL GILTZ if he knows now what kind of birds don't fly. - - - AL (75 ASSAY) SISLER is on vacation this week. - - - R. W. (THE LOVER) JONES is back in the harness after two weeks vacation. We all better find out what he has for breakfast. We also hope that the next time there is any overtime in the Annex building, that JOHNNIE SIMMONS lets LYMAN COOPER have it, because he's cried for a whole week because he didn't get it all. - - If LYMAN COOPER doesn't start making PETE FRAKES coffee he is going to turn him in to BUSS REED. - - - "HANK" MODESITT said he sure will be glad when MAURICE COOMBES gets back off his vacation, wonder why? - - WAYNE JACKSON is taking a weeks vacation. - - - Does BOB BRANNON really hate the barber shop so bad that he cuts his own hair with his razor?? - - - PAUL WEBSTER is on vacation enjoying himself. - - - Would someone point out to WES ELLINGER which is his lunch box when he goes home, HANK MODESITT may get a little hungry sometime.

R & D LIFE SCIENCE GROUP.

Life is a little quiet around Life Science this month with DRS. GEORGE THRASHER, JESS HENSON and DAVE HOWE vacationing - but the noise isn't with the bosses all gone the "noisy boys" seem to get even a little bit noisier. - - - WAYNE "GOV" LESLIE has a new way of figuring gasoline efficiency on his relatively new Ford pick-up, he figures days per tank of gasoline. He notices his efficiency is better on short work weeks that is, if he stays home. - - - CLAUDE "TOBE" BARRETT is trying to get someone to define the suicide squeeze in baseball -- and to tell him who will win the State High School Basketball Championship this school year. "CURLEY" KEEGAN is bragging about his bronco- riding escapades in the Montana rodeo (that's row-day-oh, you know) on his vacation. He admits privately, though, that he wouldn't get close enough to one of those broncos to touch them - let alone ride them.

DERIVATIVES NEWS

GENE SHUMAKER has the answer to sleeping during the day time with children around the house. He purchased a trailer in lieu of adding another room to his house. - - - A person usually thinks of a south-erner when talking about vegetable greens. Here's a suggestion from LYLE BABCOCK from Yankee land, (upstate New York). When thinning your beets, save the young beets and greens and treat yourself to a mess of beet greens. JOHN JACKSON followed his suggestion and can heartily recommend it.

Q. What is so odd about this paragraph that you do not know? Work at
it. Try and try again. Soon you may find out. This is a
lipogram. Do not look this word up in a dictionary until you try
hard to catch on to its oddity.

Housework is what a woman does that nobody notices unless she doesn't
do it.

Among the English language's many puzzling words is "economy" which
means the large size in soap flakes and the small size in automobiles.

One 3-year-olds' explanation for being atop a ladder, eating cookies
that had been placed out of reach: "I just climbed up to smell them
and my tooth got caught."

And remember, my friend," lectured the evangelist, "there will be no
buying or selling in heaven"."That," mumbled a businessman, "is not
where business has gone".

Child specialist giving advice to mother: "You'll have to handle this
child carefully; remember you're dealing with a sensitive, high-
strung little stinker."

Weatherman on telephone: "My corns hurt too, madam, but we still say
it will be clear and sunny."

"Did you fish with flies?" asked a friend of the returned vacationer.
"Fish with flies! exclaimed the vacationer. "I hope to tell you we
did. We fished, camped, dined, and slept with them."

"I've got a cow I want to sell you, Charlie.""Yes? Would she fit into
my herd?" "No; I dunno as she she would." "Does she give lots of milk?"
"No; I can't say as she gives lots of milk, but I can tell you this:
She's a kind, gentle, good natured, old cow, and if she's got any milk
she'll give it to you."

A company received an anonymous letter enclosing a \$50 check. "This
is the money I stole from you... haven't had a good night's sleep
since."

At the bottom of the letter was a P.S. "If I still can't sleep, I'll
send the balance."

About the time we think we can make ends meet they move the ends.

Answer: It does not contain the letter "e".

SEPTEMBER NEWS

KEKO'S KOLUMN

So you thought Keko's Kolumn had disappeared. Well, it is just like a bad penny, it always returns. I would like to give a special tribute, a vote of thanks, a roll of the drums, and any other accolade we can think of to ALL members of the Maintenance Department. You fellows must have been imbibing spirits quite freely this summer. By spirits, I mean that good old CSC spirit of co-operation. I knew that we could get our several projects completed on schedule and you certainly did not let me down. My heartfelt thanks to each and every one of you.

Incidentally, all other departments did their share in this big summer project. Many departments had to forego normal maintenance in order to permit us to complete our work on schedule. My thanks for your co-operation.

Well, the bowling season has started in that modernized Vigo Bowl. I am giving fair warning right now. I intend to win a trophy! I am tired of looking at that one received from the Golf League with the wrong first initial.

September is the time for the annual United Fund drive in our Plant. You all know that this is the only drive in which we allow in-plant solicitation. This is your chance to support 26 community serving agencies through a single contribution. Let's all make our Company's campaign a success.

September also brings us to the annual visit of our "old timers." The luncheon will be held the last Wednesday of the month. Let's give a big welcome to these fellows when they come back to visit us. I know you sometimes ask yourself the question "Am I a man or mouse"? Perhaps I can help you get the answer. I am sure some of you have read about the "Year of the Dragon," "Year of the Horse," etc. in the Japanese calendar. Through the courtesy of several of the recent Japanese visitors we have had in the Plant, I have a table in which you can determine "who" and "what" you are. There are 12 different years in the Japanese cycle. Look for the year of your birth in the following table and you will be able to determine whether you are "man" or "mouse."

Year of Your Birth

Japanese Year

1900	1912	1924	1936	Rat
1901	1913	1925	1937	Cow
1902	1914	1926	1938	Tiger
1903	1915	1927	1939	Rabbit

ACCIDENT ODDITIES

TOO WELL DONE. It was a neighborhood barbecue. The weather turned cool, so all hands helped move several charcoal grills into the host's garage. In half an hour, everyone started coughing and gagging. Police and firemen rushed fifteen of them to the hospital where they recovered from carbon monoxide poisoning. (Charcoal may not give off much smoke, but it does release almost pure carbon monoxide. Use grills only out of doors.)

NEWS FROM OUT OF THE BLUE - - -

"Em" (Fox Ears) Loveless has returned to squirrel hunting again. He and companion (male) went hunting in this special woods about 20 miles south of here. It was special since it abounded with the furry tailed little rascals and about 15 years ago EM had been run out of there by the farmer who owned the grove.

EM figured that the old boy had passed to his reward but nonetheless he and friend approached the woods with great care and stealth. Hunting was excellent, EM had 3 squirrels and had another treed directly above him when lo and behold he happened to spot the old farmer walking down the fence row not 15 feet away from EM. The old boy was accompanied by two dogs, one white mongrel, who spotted EM and came barking joyously to greet him. - - - Our hunter, trying to remain concealed, quiet the dog, keep his eye on the treed squirrel, keep his grip on his gun was forced to loosen his grip on his three dead squirrels. Quick as a flash, the dog grabbed one of the squirrels and ran off in the woods. EM was so shook that all hunting ceased as of that moment. - - - Sneaking out of the woods he was aghast to see his companion talking to the old farmer. Back at the car his companion told EM that the old farmer didn't mind people hunting in his woods any more and that the farmer had been looking for one of his sows. EM had to be physically restrained to keep him from going back into the woods on a white dog hunt. There is a moral somewhere in this story but at the moment it escapes me - probably EM too. -----

LAFF LINES

A typographical error crept into a telegram a man at the beach sent his wife: "Having wonderful time; wish you were her."

When a woman filling out an application came to the blank marked "age" she didn't hesitate. She simply wrote: "Atomic!"

Alarm clocks are things to scare the day-lights into you.

Keep smiling, It makes everyone wonder what you've been up to.

The bank robber shoved a note across to the teller which read: "Put the money in a bag, sucker, and don't make a move." The teller pushed back another note saying, "Straighten your tie, stupid, they're taking your picture."

The personnel manager, checking the job reference of an applicant, asked the man's former employer if he was a steady worker. "Steady?" came the reply. "Why, he was absolutely motionless."

Enraged because her husband had left his money to someone else, the widow went at once to the monument maker to have the inscription on his tombstone changes. "Sorry," the man said, "but you ordered 'Rest in Peace' and it can't be changed now." "Well, then," said the widow- "just add underneath it 'Till We Meet Again'."

"What's this fly doing in my soup?" inquired the businessman who was getting more irritated by the minute. The waiter came behind the table, stood a minute looking into the soup bowl: "Looks like the back stroke to me."

Displaying her wedding gifts, the bride came to one from the groom's army buddy. "I just adore these personalized gifts," she said. "We received towels and washcloths with HIS and HERS on them, but," she blushed, "this is even more personal." And she fingered an olive drab blanket with the letters US stamped in the middle.

A man went into a butcher's shop, and finding the owner's wife in attendance, in the absence of her husband, thought he would have a joke at her expense, and said, "Madam, can you supply me with a yard of pork?" "Yes, Sir," she said. And turning to a boy, she added, "James, give that gentleman three pigs feet."

The drunk, on his way home, accidentally staggered into the zoo and ended up in front of the hippopotamus cage. "Don't look at me like that, honey," he yelled. "I can explain everything."

The prim little old lady was obviously embarrassed by the presence of a man beside her at the drugstore counter. Finally a smile crossed her face. She looked the clerk in the eye and said perkily: "Two packates of bathroom stationery please."

Those rainy days for which a man saves usually arrive during his vacation.

IT'S YOUR MONEY.

UNCLE SAM STUDIES RATS & ALCOHOL, TERMITES, BIRD SIGNALS, ALBATROSS

If you think you've heard all the "far-out" wasteful expenditures of taxpayers' money by the Federal Government, consider these new examples of appropriations for studies which were cited recently by Representative Homer F. Abele (R-Ohio):

\$17,500 for modification of alcohol preference in rats

\$15,200 for a study of society and demography in ancient Babylonia

\$36,800 for social behavior of ants

\$2,100 for behavior patterns of the barren-ground caribou

\$16,800 for social behavior of termites

\$20,600 for communication signals in birds

\$16,900 for revision of the classification of earthworms

\$13,700 for social structure in Madagascar

\$29,300 for mammal fauna of the highlands of Ethiopia

\$65,400 for behavior and ecology of the wandering albatross

Congressman Abele is to be commended for having brought out into the open these appalling instances of wild extravagance. Anyone who has ever attempted to plow through the voluminous, intricate and

"cover-up" phraseology of the Federal budget knows that it really takes patience to spot these shocking abuses.

It is to be hoped that Representative Abele's labors will not have been in vain; that something is done to stop these giveaways, but fast.

C.S.C. HONORS RETIRED EMPLOYEES

September 25th was the fourteenth annual luncheon honoring our retired employees. The morning was spent visiting around the plant and with former fellow workers. At noon the lunch was served at the Terre Haute House. A number of company officials attended the program and Mr. Wilbur Keko announced that seven new members had joined the club in 1963. They are, PAUL C. BOWMAN, CHARLES W. ALBRIGHT, WILLIAM T. MEEKS, OSCAR N. YOUNG, ADRIAN V. RAY, HAROLD E. BURROWS AND RAY C. KLUSSENDORF. The oldest guest was WILLIAM STREETER, age 86 who recited the following poem.

I AM FINE, THANK YOU

There is nothing the matter with me,
I'm as healthy as can be.
I have arthritis in both knees
And I talk with a wheeze.
My pulse is weak, my blood is thin,
But I'm awfully well for the shape
I'm in.
Arch supports I have for my feet
Or I wouldn't be able to be on the
street.
Sleep is denied me night after night,
But every morning I find I'm all right.
My memory is failing, my head's in
a spin.
But I'm awfully well for the shape
I'm in.
The moral of this as this talk unfolds
That for you and me who are growing
old.
It's better to say, "I'm fine" with
a grin
Than to let folks know the shape
you are in.

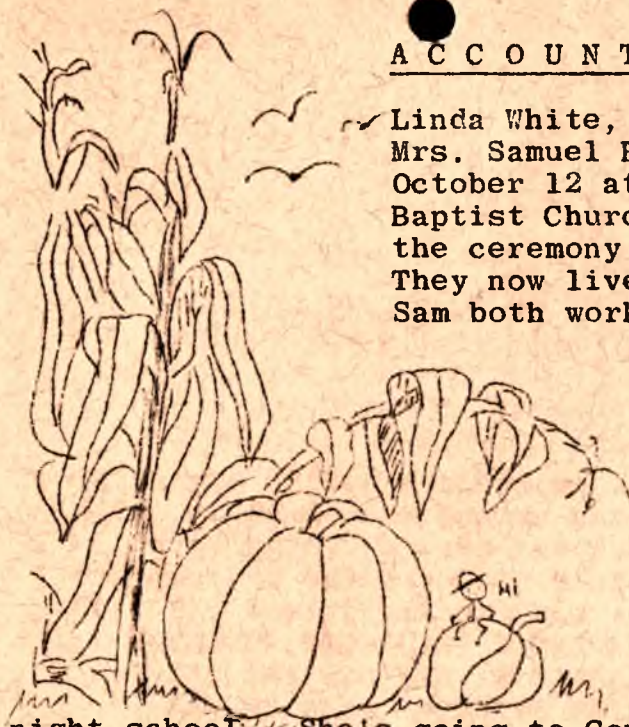

At the conclusion of the luncheon the club elected new officers for the coming year. CHARLES B. UNDERHILL, President; ORPHY KEEGAN, Vice President; MARVIN "BILL" MOSEMAN, Secretary and JOHN V. BROWN, Treasurer. We received a letter from LOUIE PELKEY regretting that he could not be here and extended best wishes to all fellow workers.

Linda White, daughter of DEWEY WHITE, is now the Mrs. Samuel Benton. The couple was married on October 12 at 8:00 by Dr. Utter at the First Baptist Church. A reception immediately following the ceremony was for the family and close friends. They now live at 6612 Honey Creek Road. Linda and Sam both work for Roots.

BILL ESKEN and his wife celebrated their 15th wedding anniversary on October 16. - - - DELTA JONES WAS a bridesmaid in a wedding on Saturday, October 19. - - - ESTILL ROTH thinks ROSIE GAYER needs a new typewriter. It seems the darned thing keeps making mistakes on the checks she types for him.

FRAN KASSEL left us and is going to night school. She's going to Commercial College and is taking a typing course. Best of luck FRAN. - - - The Accounting Department welcomes BETTY YOUNG back. - - - ESTILL ROTH came to work so overwhelmed (as he puts it) one day by the fact that his daughter and daughter-in-law are both expecting that he just had to call home and check on his wives condition. We don't know what the results were but she called him (and we quote) "A Crazy ole Goat". ESTILL left October 17th to visit his daughter in Wilmington, Delaware for two weeks. - - Since PAM HUBERTI and CAROLYN BYERS are semi-widows, they're thinking about taking knitting lessons. Both of their husbands are working and going to school. - - - Unhappiness is a matter of not knowing what we want, and working ourselves to death to get it.

PURCHASING welcomes ROBERT L. ISENBURG into their department. - - - JOAN KASAMEYER attended the Beta Sigma Phi State Convention at Indianapolis recently. - - - We are right in the midst of that time of year when our hearts should be light and we should try to make the hearts of others light, so here is a little soft and easy reading:

NOT-"How did he die?"
BUT-"How did he live?"
NOT-"What did he gain?"
BUT-What did he give?"
These are the units
To measure the worth
Of a man, as a man
Regardless of birth.

NOT-"What was his station?"
BUT-"Had he a heart?"
AND-"How did he play
His God-given part?
Was he ever ready
With a word of good
cheer
To bring back a smile,
To banish a tear?"

NOT-"What was his church?"
NOR-"What was his creed?"
BUT-"Had he befriended
Those really in need?"
NOT-"What did the sketch in the newspaper say"

BUT-"How many were sorry
When he passed away?"

One of our Engineer's wives has been making the news lately with her "out of this world" biscuits which was publicized in a recent Terre Haute Star article, namely, Mrs. ROGER NEWTON, wife of DR. ROGER NEWTON. The recipe was also published along with the picture of Mrs. Newton in her kitchen baking these delicious biscuits. The recipe has already been tried by one of the member of our Section, and she claims it is ever bit as good as it was described. Speaking of good recipes - yours truly had the privilege of being a guest recently at a "Taste Luncheon" given by the Delta Gamma Alums at the Women's Department Club. All

the food was prepared by the members of the Sorority amounting to 50 unusual recipes. The spectacle of all this food arranged so attractively was truly a gourmet's delight. Anyway, to get to the point, these interesting recipes were published and sold at the luncheon, and here is one I recommend highly for anyone caring to dabble in a little fancy cookery:

" Swedish Meat Balls

2 lbs. chuck - - ground twice

Add 1 egg

2 tbs bread crumbs

Enough water to mix easily, salt & pepper, Lawry's salt.

Whip up and let stand while you start the sauce.

(Sauce): 1 bottle chili sauce

juice of half of lemon

1/2 glass grape jelly

Stir and place on low fire. Shape meat into tiny balls. Drop into Sauce when it boils and cook 1 hr. Add a few cloves and 2 dried peppers and a little wine." - - -

MIKE HARMAN is taking a vacation trip now out to California - combining business and pleasure - as he will stop in Agnew before returning home. - - - PAUL ISENBURG, JOHN GRECH and BENTLEY BROWN are crowing now on how well University of Illinois is doing with their football team this year as they are all former students of this Alma Mater. - - - BOB DINKEL is still trying to take his boat up and down the river, but most of the time we understand they are getting out and pushing it. - - - WALLY KINSER'S wife, Hazel underwent major surgery recently, but we are happy to report that she is doing nicely and will soon be home again. - - - Some of the personnel of Engineering and Research enjoyed the color slides recently taken by ADRIAN STANLEY this summer on his trip to Puerto Rico. They were shown one noon in the glass bowl, and the pictures were most interesting, and one felt that they had enjoyed a firsthand view of the island, their people and homes after seeing these colorful views and so well commented on by Mr. Stanley.

RETIRED NEWS

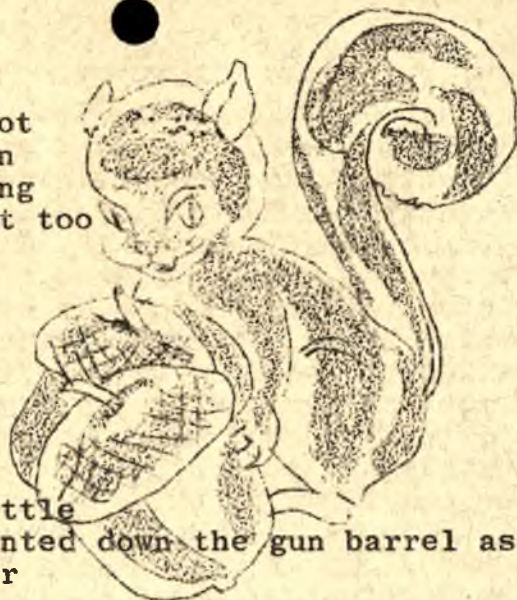

The October meeting of the CSC Retired employees Club was held October 1st at the Ute shelter in Deming Park. Eighteen members and eighteen associate members were present. Attendance prizes were won by WALTER WHITAKER and BENCE MCINTYRE. Committees appointed were ORPHY KEEGAN, Entertainment; CLAUDE THOMPSON, WILLIAM SMALL AND WALTER R. MOORE, SICK COMMITTEE. Doughnuts and coffee were served and bingo was enjoyed by all. The next meeting will be held November 5th at the V.F.W. If any change in the meeting place each member will be notified.

INTERESTING LITTLE TID-BIT:

One evening recently HERMAN LESLIE CRUSE answered a knock at his residence front door and upon opening encountered a sure enough looking "sweeper salesman". HERMAN immediately said "If you're a sweeper salesman, I don't want any - we've got an ole sweeper." His visitor countered back, "I'm not selling sweepers, only hearing aids. I came in answer to your inquiry as to how you could hear better." CRUSE naturally was shook - he hadn't realized his hearing was slipping. At any rate HERMAN wouldn't invite him in, but spent 30 minutes plus out on the stoop endeavoring to convince the fellow he wasn't hard of hearing. The moral of this episode: Don't open your door evenings to strangers - they may get their hand in your pocket.

FURTHER ESCAPADES OF "NIMROD" LOVELESS

It seems that one squirrel hunting season not too long ago two mighty hunters, complete in Marine camouflage combat outfits, were taking their ease under a tree when, upon a log not too far distant, a lively furry tailed little beast did jump, and sat eyeing the two reclining hunters.

The better shot of the two nudged old "Nimrod" Loveless and pointed out the squirrel sitting there on the log. Slowly, noiselessly and with great deliberation our hero brought his 12 gauge to bear on the little fellow on the log. A steely, eagle eye glinted down the gun barrel as EM zeroed in; he slowly squeezed the trigger and the gun went off with a terrific bang.

Pieces of wood were shattered from the log, the underbrush was ripped and torn from the hailstrom of shot and the squirrel ran off untouched.

Cries of anguish and rage, words of livid blue rent the sylvan stillness of the forest as EM saw the squirrel scamper away, unharmed. When he finally calmed down he explained to his friend, the better shot, that his old 12 gauge sometimes shot a weird pattern in that the pattern seemed to open up and then pinch down again and this he knew had happened. In other words, what he was saying was that as the pellets approached the squirrel, they changed directions, went around the squirrel without touching him then changed direction again to continue on in a straight line.

Now, anybody that knows anything about shot guns will tell you that this is impossible - but EM believes it to this day and will still tell you so. What actually happened according to his friend, the better shot, was that the instant just before EM let fly the squirrel had jumped down off, and in back of the log so that when EM shot there was no squirrel there at all.

There is a morale to this story EM - don't shut your eyes when you pull the trigger.

LATE LINES

The young lady eyed her escort with disapproval. "That's the fourth time you've gone back for more punch, Albert," she said coldly. "Doesn't it embarrass you at all?" "Why should it?" the young man shrugged. "I keep telling them I'm getting it for you."

A man owes it to himself to become a success. Once successful, he owes it to the tax collector. -- J.W.Moore.

The local dairy maintains its milk is so fresh that four hours before it's delivered, it's grass.

Stop worrying about your future. It may not last that long.

A great many so-called open minds should be closed for repairs.

There was the woman who married four times. The first husband was a millionaire, the second an actor, the third a doctor and the fourth an undertaker. Certainly a case of one for the money, two for the show, three to get ready and four to go.

Wife advising private detective: "I want to trail my husband and that other woman, and I want a complete report on what she sees in him".

What this country needs is more politicians who love us between campaigns.

Angry wife: "That ten dollars that was in your pants pocket last night -- did you steal it out of my purse this morning?"

A Congressman was jarred by this letter from a constituent:

"Dear Sir: I haven't read anything about you in the papers in some time. What is your latest mistake?"

A young man's hardest problem is to find a girl attractive enough to please him and dumb enough to like him.

The weary shoe salesman had pulled out half the stock and still could not satisfy the fussy woman customer. Finally, he mopped his brow, sat on the floor, and said: "Mind if I rest a minute, Madam? Your feet are killing me!"

Have you been to any other doctor before you came to see me? asked the grouchy doctor. "No, sir," replied the meek patient. "I went to a druggist." "That shows how much sense some people have!" growled the doctor. "And what sort of idiotic advice did he give you?" "He told me to come see you."

When the going seems easy, check to make sure you are not going downhill.

The way to get ahead is to use a head -- preferably your own.

The value of anything is what you will remember about it tomorrow.

thanksgiving

The wild turkey is a symbol of the Traditional Thanksgiving feast when in 1621, our Pilgrim fathers thanked God for the hardships overcome and the blessings of freedom.

For our continued American way of life, our many blessings, our prosperity and friendships, we continue to give thanks to God.

One of the special blessings for which we give thanks is our pleasant association with you. Your trust, confidence, and friendship - both in a personal and business way - mean much to us.

May this Thanksgiving Day and the approaching holiday season bring joy to you and your loved ones.

May the good things of life be harvested by you every day of the coming year.

LAFF LINES

One sure way to get your wife to return from an extended vacation is to send her the hometown newspaper with a clipping removed.

Two Boy Scouts, whose younger brother had fallen into the lake, rushed home to mother with tears in their eyes. We're trying to give him artificial respiration, one of them sobbed, but he keeps getting up and walking away.

How come you are going all over dragging that heavy log chain behind you? he asked. The first drunk snorted, Mishter, did you ever try PUSHING one of them darned things?

I'll never forget my wedding day, remarked Jack. When the time came, I couldn't find the ring. Boy, did I get an awful fright! "Yeah, I know," agreed his friend, "and you've still got her".

Say, Zeke, that Murphy gal up on the hill wants to git married. If you go home, take a bath and clean up, you could grab her fer yore wife," "Yeah, Clem, but suppos'n I took and cleaned up and then she wouldn't marry up with me, then what?"

Dear Friends;

First - Forget the unpleasant - but
Remember the GOOD.

I like to remember the good times, when we worked and played - our softball, bowling, baseball and basketball teams, the good times we had on trips to Indianapolis, Dixie, Peoria and "Buds" - "Buds", how'd he get in here?

That fine party you had for me on Friday, October 25th, the attendance was wonderful and the presents - the Pin, representing the number of years I was associated with you and Commercial Solvents, also the Golf Cart and Clubs, thanks, many thanks.

I have said this before and I must say it again, you are a great 'bunch', your co-operation was the best and your loyalty never questioned.

My wife - Marg and I are looking forward to the future - future which comes one day at a time to do some traveling and do some things we never had the time to do, but we intend to live at 917 South 6th Street and you are welcome to stop for a "coke" anytime.

You are the people that made my job - from the bottom of my heart I thank you for everything.

Sincerely - your friend

Bill Evans

ANTIBIOTICS - SHIFT # 4

All the Fellows down here share the sorrow with CLAUDE FOOTE in the loss of his mother.

We wonder if JACK MONTGOMERY can put out stories, as tall about his rabbit hunting as he does his golf (WOW). - - - EARL PIERCE and BOB BRANNON think they have something as good as the new zip top can, bottle openers mounted on the dash-board of their automobiles, really handy, especially going home off of the owl shift. - - - ERNIE HARGIS we hear is hunting a recipe for making home brew, he made a batch, results, every bottle blew up. - - - Everything is peaceful on the owl shift this week, "The Grouch" is on vacation. - - - HENRY BUSH had a stint in the hospital. Hurry back Henry the day shift is waiting. - - - The Lipton Tea Co. would go broke if AL SISLER ever quits drinking tea. - - - We all in Bldg. 95 thank you "BUSS REED" for the music. - - - Every one should have R. W. JONES to tell them how many eggs a 12' man eats for breakfast.

RESEARCH NEWS

Lily Davis wife of HOWARD, recently graduated from Practical Nursing school and is on the nursing staff of Union Hospital. - - - LINDA CHANDLER daughter of WAYNE won first place in Extemporaneous speaking in a High School speaking contest at Bend Davis High School in Indianapolis. Nice going Linda, keep it up. CHARLES GOODALE and DAVE HOWE attended a Chemical Market Research Association - National Plant Food Institute meeting in Atlanta last week. Everything was fairly peaceful until their airplane broke down and grounded them in Cincinnati, Ohio. When they decided to drive home the rest of the trip was quite exciting.

SOUTH PLANT NEWS

Several have been on vacation during the last month. - - - C.H. DENGES and wife invited us to a Chili Dinner Wednesday, November 13. The food was delicious and we want to thank them for the lovely meal. - - The South Plant has been humming with activity during the past few weeks as orders have been plentiful - - - Vacationers this week include C. H. DENGES and DUKE TAYLOR.

IN MEMORIAM - OSCAR N. YOUNG

The sudden death of OSCAR N. YOUNG on October 24, 1963 was unexpected by his many friends at Commercial Solvents Corporation. Oscar was employed in October 1939 and joined our retired group on May 1, 1963. He spent the last twelve years of employment with CSC in the Industrial Alcohol Division as a truck driver and warehouseman.

We at C.S.C. extend our sympathy to wife, Mrs. Alma Young, son, Richard and mother, Mrs. Vern Young.

ENGINEERING NEWS

We have a new grandfather in our Engineering group now, namely, DALE COTTOM, who has a granddaughter named Cammy born to his son David and wife three weeks ago. - - - ERNIE DANNER has now taken off for Sterlington to take his turn in the "deep South" at Thermatomic Carbon Co. It is rumored that Ernie has taken all his "old clothes" for the designated job. - - - All Illinois Engineers had crepes over their desks last week after Michigan tumbled the Illini. BOB WALTERS slipped into town this last weekend, but went back South immediately when he saw the frost here. - - - Rumors have it that the HARMAN'S left Agnew some time ago, but no word has been received. Must have gotten snowbound in the Rockies. WES TOBIAS reports that last weekend his

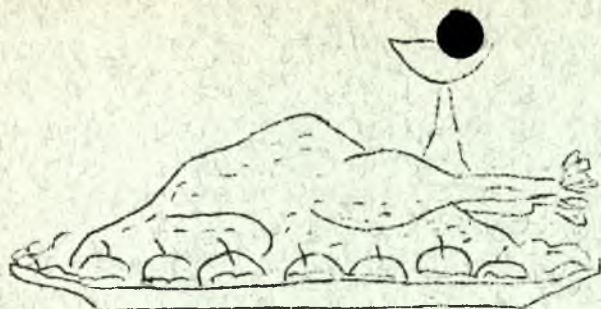

Peoria house is still his, so it seems he will have to turn the heat on so the mice won't freeze. - - - Word from AL MILLER is that his furniture has arrived at Ames, and he is all settled. He reports the students are smarter than they were at Purdue thirty years ago. - - - ROGER NEWTON took his wife on a vacation in the Sunny South, but deserted her there with the Volkswagon to make a quick trip to Medicine Hat. - - - HERB HYLTON, one of our field engineers at Dixie, is hale and almost hearty after a siege with the near pneumonia bug. - - - ED MOORE is another one of those fellows who wants tomorrow off for vacation - IF it doesn't rain. Guess the rain would keep him from sleeping in at home. - - - HOYT BOREN, another of our Dixie field engineers, says he likes the Sunny South and has a "Thermatomic Tan" to show it. - - - BENTLEY BROWN had old friends Don Moore, formerly of Medicine Hat and Julioso Troelzsch, retired from Dixie, visiting last weekend. - - - AL SIEKERMANN, former CSC engineer, now with Proctor and Gamble, visited us recently. - - - All CSC'ers were recently saddened by the sudden death of Bob Cowherd.

CHEMICAL PILOT PLANT

JOHNNIE and Minnie BITTS are remodeling their house during Johnnies vacation. John's been seen in painters clothes. - - - VIRGIL FAGG reports he has his corn and soybeans all picked. Says its' time to sit back in his chair and rest up for next spring. - - - KENNY ATKINSON reported for work last week with a sore leg. The story was he walked into a parking meter. Who was driving Kenny? - - - Melodies floated around the Pilot Plant the day after election. Search revealed that the happy fellow was none other than BUCK BYERS. - - - It is suspected that "daddy" Merriam will return to Iowa during Thanksgiving holidays for pheasant hunting. - - - BILL RUMP now writes Spirit News for the Pilot Plant. He has talked JOE MC COMBS into helping him. That job takes imagination. If there is nothing good to write they'll have to make up something. - - - PAUL CHATMAN says his teenage daughters keep him on the go. Paul enjoys it, keeps a fellow from ageing. - - - anybody for a well tuned car see RICHARD "Dick" HANLEY.

FOREIGN AID IS SENDING YOUR MONEY AND YOUR JOB OVERSEAS

By - Honorable Robert R. Casey, Member of Congress for Texas
Taken from Surplus Record, November issue.

Did you know that we have built 179 steel mills in foreign countries at a cost to you of nearly two billion dollars?

In the past five years alone - look what we've built - and then stop and think how your own plant is faring with foreign competition: 31 paper plants; 23 chemical plants; 22 rubber plants; 13 aluminum plants nine plastics plants - all built with your tax money to compete against you.

Look at Mexico, as an example: in 1960, only 65 tons of Mexican steel plate was shipped into the United States. By 1962, this had increased to 12-thousand tons. So far this year, it is more than 21-thousand tons.

Well, whose tax money do you think built, modernized or expanded these 22 Mexican steel mills? Ours-that's whose.

T H A N K S T O B L O O D D O N O R S

Our thanks go to BILL VOLL, RALPH DITTO & VIRGIL LEDBETTER who donated their blood for RALPH "MAC" MCGUIRE and to VIRGIL FAGG, WARREN LISTON, EDWIN MOORE AND ELLIS TAYLOR who donated their blood for R. MAXINE OSBORNE. Again thanks to all you fellows.

The new facilities at "Strike More Lanes Inc.", formerly Vigo Bowl has certainly made bowling more pleasant. After a slow start there have been a number of good series with the highest being a 685 rolled by W. Robson.

The Rascals seem to have a comfortable six game lead, however, Process has been coming up fast, after losing the first six games of the season. R. Jarvis, the Process Team Leader, believes they will have to be reckoned with before this half is over.

We have several new bowlers to the league this year, some who just starting bowling again, and three of the fellows recently from Peoria. We are certainly glad to have these fellows with us. If this interest continues, would it be possible to expand to a ten team league next year?

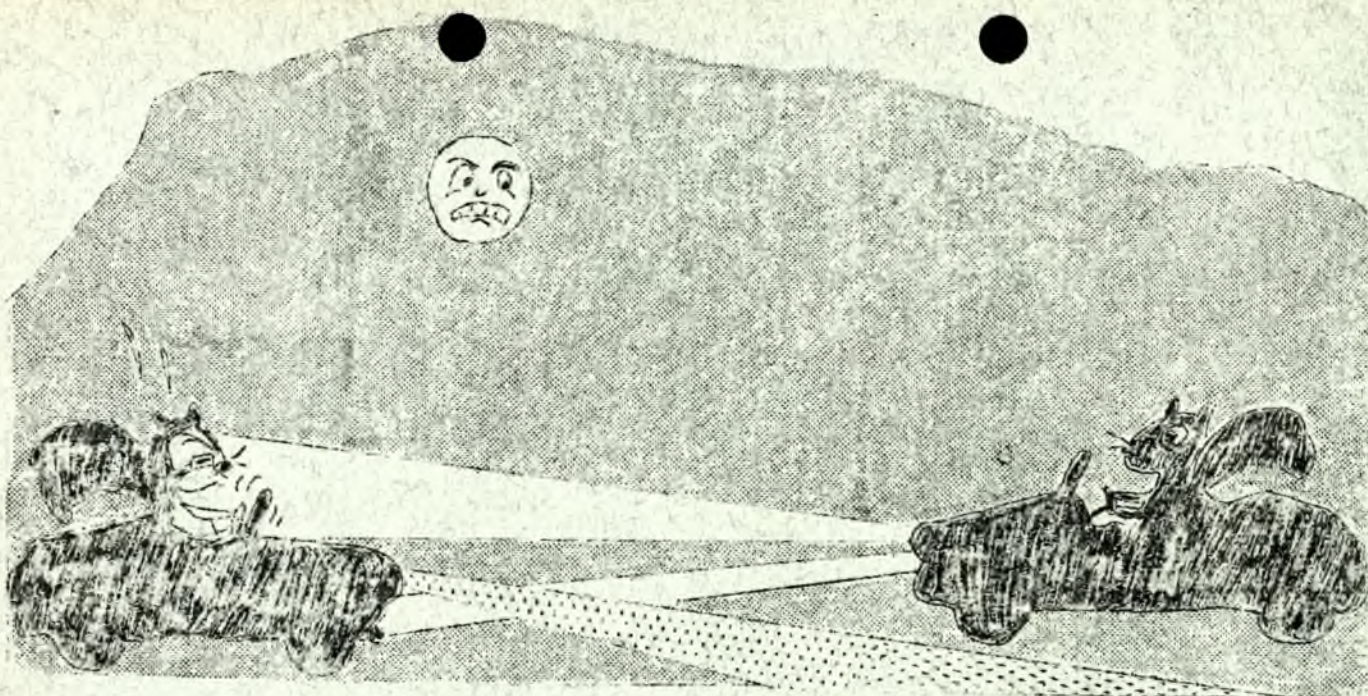

With only a few remaining to bowl for the Thanksgiving Turkeys here are the leaders.

WATCH OUT FOR THE TWILIGHT TRAP! 5 TO 8 PM:

Night driving is different. That seems obvious, but many drivers don't realize how different. When darkness falls, motorists are driving in another world, yet many still use their daytime driving habits and attitudes. It would be just as sensible to wear summer clothing in winter. Conditions have changed and the driver needs more protection. Statistics show that during the hours of darkness - especially between 5 and 8 P. M. - fatal accidents increase sharply.

What is so dangerous about the early evening hours? Traffic experts say that as daylight fades into twilight, and then into darkness, drivers fail to make the necessary adjustment to changing light conditions. They blunder into a twilight trap in which daylight has faded and headlights can't possibly provide the same amount of illumination as the sun. Heavy traffic created by people going home from work during the early evening rush hours also contributes to the twilight threat.

Whether you drive on lighted city streets or dark country roads, night driving is certainly more hazardous. Statistics show that in cities more than 3 out of 5 traffic deaths occur at night. In rural areas, more than half of the traffic accidents happen after dark. That doesn't sound so bad until you remember that fewer people are out at night. In cities the mileage death rate (deaths per 100 million miles of travel) jumps from 3 in the daytime to 6 after dark. In the country the mileage death rate soars from 5 to 13.

It is certain that darkness doubles traffic troubles - 90 per cent of the decisions drivers make, and the actions they take, are based on what they can see. You must be able to see danger to avoid it, so never overdrive your headlights!

MACHINE SHOP TALK

The Machine Shop Hunting terrors DALE KIRTS and SAM . JOSLIN are on vacation this week hunting the mighty "deer". No word at this time as to their luck. - - - BYRON CONRAD has returned to work after two weeks vacation, breaking in his new car. He says it is not too much on the economy side. - - - CLYDE WHITE can't understand all of the good luck that has come his way lately. He has won money, turkeys, candy and liquid refreshments at his favorite place of relaxation. - - - JOHN VOLL thinks maybe he should have taken up bowling instead of gun collecting as a hobby since all the publicity it has been receiving. - - -

CLIFF KYLANDER returned to work this week from vacation no comments on any exciting happenings. - - - KENNETH MC INTOSH is on vacation this week for a little hunting and a well earned rest. - - - Nothing new on ROY LA FOLLETTE wifes Christmas present. (New car a few years ago you know) - - - W. PAUL HARPOLD is on vacation this week, he is going to see Santa Claus. - - - DALE ROYER is the new Captain of the American Legion Bowling Team. Any help in this endeavor would be appreciated. - - - WILBUR CLOUGH is having trouble with his quail shooting, the shells are not good anymore. - - - Nothing new on the quiet ones in the shop. - - - THE SMILING FELLOWS IN THE MACHINE SHOP WISH EVERY ONE A HAPPY HOLIDAY SEASON.

ANTIBIOTICS NEWS - SHIFT # 3

FRED MULLINS has been in Union Hospital having a bout with an ulcer in the lower intestine. He is getting along fine.

SHIFT # 2

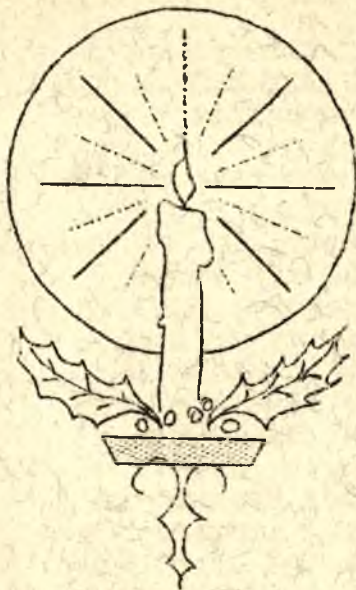

LEO SHAFFER and BILL HERAMB are on vacation sitting home keeping their shins' warm and laughing probably about how they outsmarted the weather man! We don't want them to get sick though, because of the chorus. - - - MUCK LEE, J. MATHERLY, T. GREGORY nad RAY (bring em back alive) CRICHFIELD, journeyed to upper Illinois Pheasant hunting, results, 14 birds, could of been more but the ole man gave out on em. - - - HANK MODESITT is asking for a donation of a bucket, to give to WILBUR CLOUGH to carry with him, wonder why?? - - - With cold weather here now MUCK LEE will be putting on his longjons again, (get em on right this year Muck) - - - We notice a lot of pipe smokers around here anymore, where is yours' E. HARGIS? - - - FLOYD BRYAN is having a rough time of it this week with LEO nad BILL both gone. All the fellows on Shift 2 have to watch their language a little bit these days, they have a couple of young ones around, BOB LESLIE and JOHNNIE SULLIVAN - - - A Fellow saw a blue streak coming up First Street the other day, at first it got him, but it was just the wind blowing HERM LUKEN along on his bicycle.

SHIFT # 4

Its a little bit rough on the 7-3 shift this week, we have TWO Foremen to contend with, as CLAUDE FOOTE is breaking in BOB PAYTON. (lots of luck Bob.) - - - BOB BRANNON is on vacation this week, wonder which won out (rabbits or the opener) - - - JIM MATHERLY is hunting a good horse or a slow bicycle, any offers? - - - Our poor cameraman will probably have to buy a new camera after taking BOB JONES and CLAUDE FOOTES picture this week, congratulations Claude. (Picture and story will appear in next issue). - - - We all hope that JACK MONTGOMERY can keep track of his bird dogs this week. - - - How come the "Grouch" has never picked up his green stamps in the J.N. lab yet; BOB COMBES put em out for you buddy. - - - A couple of new faces join the force down here, BOB HUNTson of CARL and BUD KILLION, Welcome fellows. - - Just wondering, if AL SISLER is going to drink that ice tea all winter??

SEE YOU TONIGHT AT

ENGINEERING NEWS

The Engineering Staff are again looking forward to the annual Christmas Party givey by the BOB DINKELS during the Holiday Season. The party will be a buffet supper held at BOB and JEAN'S home in Woodridge on December 22

- - - RAY HEIDENGER and his wife will be making their usual trek to Wilmington, Delaware Christmas week to visit their daughter and two grandchildren. - - - Two of our Engineers will enjoy Christmas in the balmy breezes of Florida on their vacation, namely, BOB WALTERS and HOYT BOREN. How can anyone get so lucky?

- - - It is our understanding that HERB HYLTON will not be able to make it back for Christmas to Terre Haute. However, we hope HERB has a nice Holiday in his adopted second home of Monroe, La. - - - MR. FRED DUDLEY was at our Terre Haute office last week for 2 or 3 days. We are always glad to see him. - - - We have a regular water brigade in the Research Building now as most everyone is seen toting thermos bottles back and forth due to the offensive water supply we have been experiencing from one of our wells. - - - ERNIE DANNER is back from Dixie and says he misses the clean carbon black. - - - THE HARMANS are busy getting re-acquainted with Terre Haute after 16 months at Dixie. MIKE is awful busy for a fellow who retires this month. - - - WES TOBIAS has finally gotten acquainted with the East Plant, but has been afraid to tackle the South Plant with all that whiskey around. - - - BOB DINKEL is perking up again after his flu spell that hit him at Dixie. - - - BENTLEY BROWN has given up on Terre Haute having any Medicine Hat type weather so he is going to take a trip to Idaho this week.

RESEARCH NEWS

HOWARD DAVIS reported at work with a portable TV in action. (Guess who had the portable TV on parade at Hulman Meadows shopping center? Mrs Davis has taken the examination as a licensed practical nurse. If Howard continues to carry that TV she'll have a job.

No family should have less than three children. If there's a genius among them, there should be two others to support him.

There are two kinds of Christmas presents ... those you don't like and those you don't get.

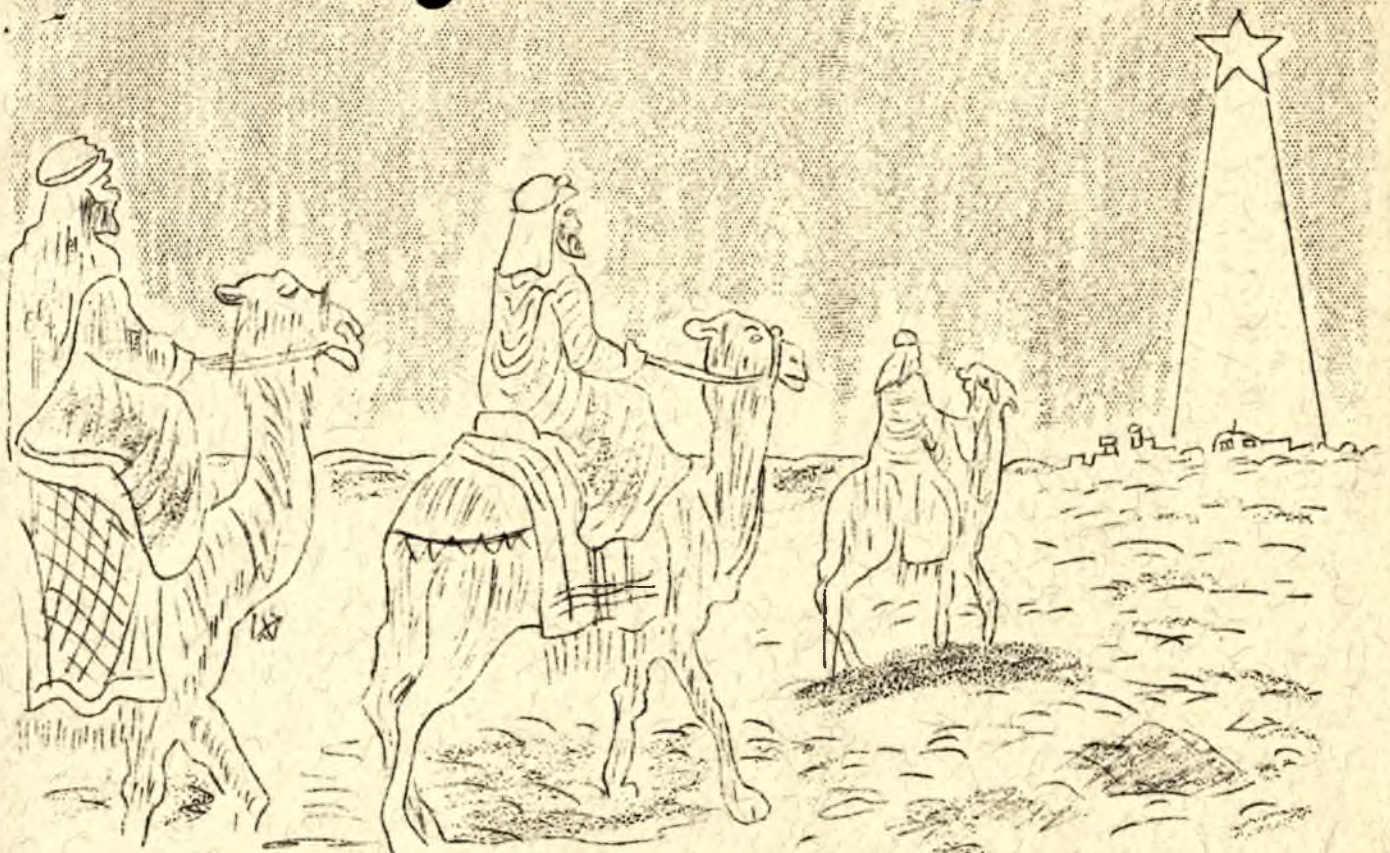

Is my face dirty or is it my imagination? Your face is clean, but I don't know about your imagination.

Most girls are wise enough to prefer a thrifty fellow for a husband, but they hate like the dickens to be engaged to one.

A husband went for a drive with his wife who was a typical back-seat driver. With every turn of the wheel she gave directions. Go to the left! Go to the right! Look out for that truck! Slow down! Step on the gas! She drove her husband crazy. They came to the railroad crossing. A train was approaching in the distance. The husband drove halfway over the tracks and stopped. He jumped out of the car. "I got my end over," he shouted. "What are you going to do with yours?"

At the end of the final examination, the teacher in a mountain school told her pupils to write a pledge that they hadn't received or given any help. One gangling youth, who had suffered throughout the test, wrote: "I ain't received no help. And God knows I can't give none."

When a husband opens the door and helps his wife into the car you know he's just acquired one or the other.
